

# BIKE LEXINGTON MAP

Select the route or facility type that matches your comfort and skill level.

**SHARED USE TRAIL**  
 Off-road paved trails that are for shared use by cyclists, pedestrians, skaters and other non-motorized traffic.

**BIKE LANES & SHARROWS**  
 A bike lane is a separate, marked lane on the street for cyclists. Buffered bike lanes have additional markings to separate traffic. Sharrows are shared lane markings.

**BIKE ROUTE**  
 Bike routes have roadside signs that indicate where you share the road with motor vehicles. Bike routes don't have lane markings.

**PREFERRED ROUTE**  
 Streets that are wider or have lower traffic speeds or volumes where an average cyclist would feel comfortable sharing the road with motorists.

**PAVED SHOULDER**  
 A paved area outside the right-most vehicular travel lane that may be used by bicycles and disabled vehicles. These are generally on higher speed multi-lane arterials.

**LOCAL STREET**  
 Neighborhood streets that are generally good for bicycling due to lower traffic volumes and speeds.

**PARK & SHARED WALKWAYS**  
 Paved walking paths and campus shared walkways not designed for bicycling speeds. Please go slow or walk your bike. No cycling in the UK Arboretum, McConnell Springs, or on downtown sidewalks.

**MAJOR STREETS**  
 Collector and arterial streets that have higher traffic volumes and speeds.

*The bicycle facilities and preferred routes indicated on this map are for informational purposes only and do not imply a required route or a higher level of maintenance. The speed and volume of traffic as well as the operating space for bicyclists will vary depending on the street and time of day. The user of this map assumes full responsibility for their safety. You are the best judge of the most suitable streets for your needs based on your skill and comfort level in different traffic situations.*

## PUT A LOCK ON IT! BICYCLE PARKING

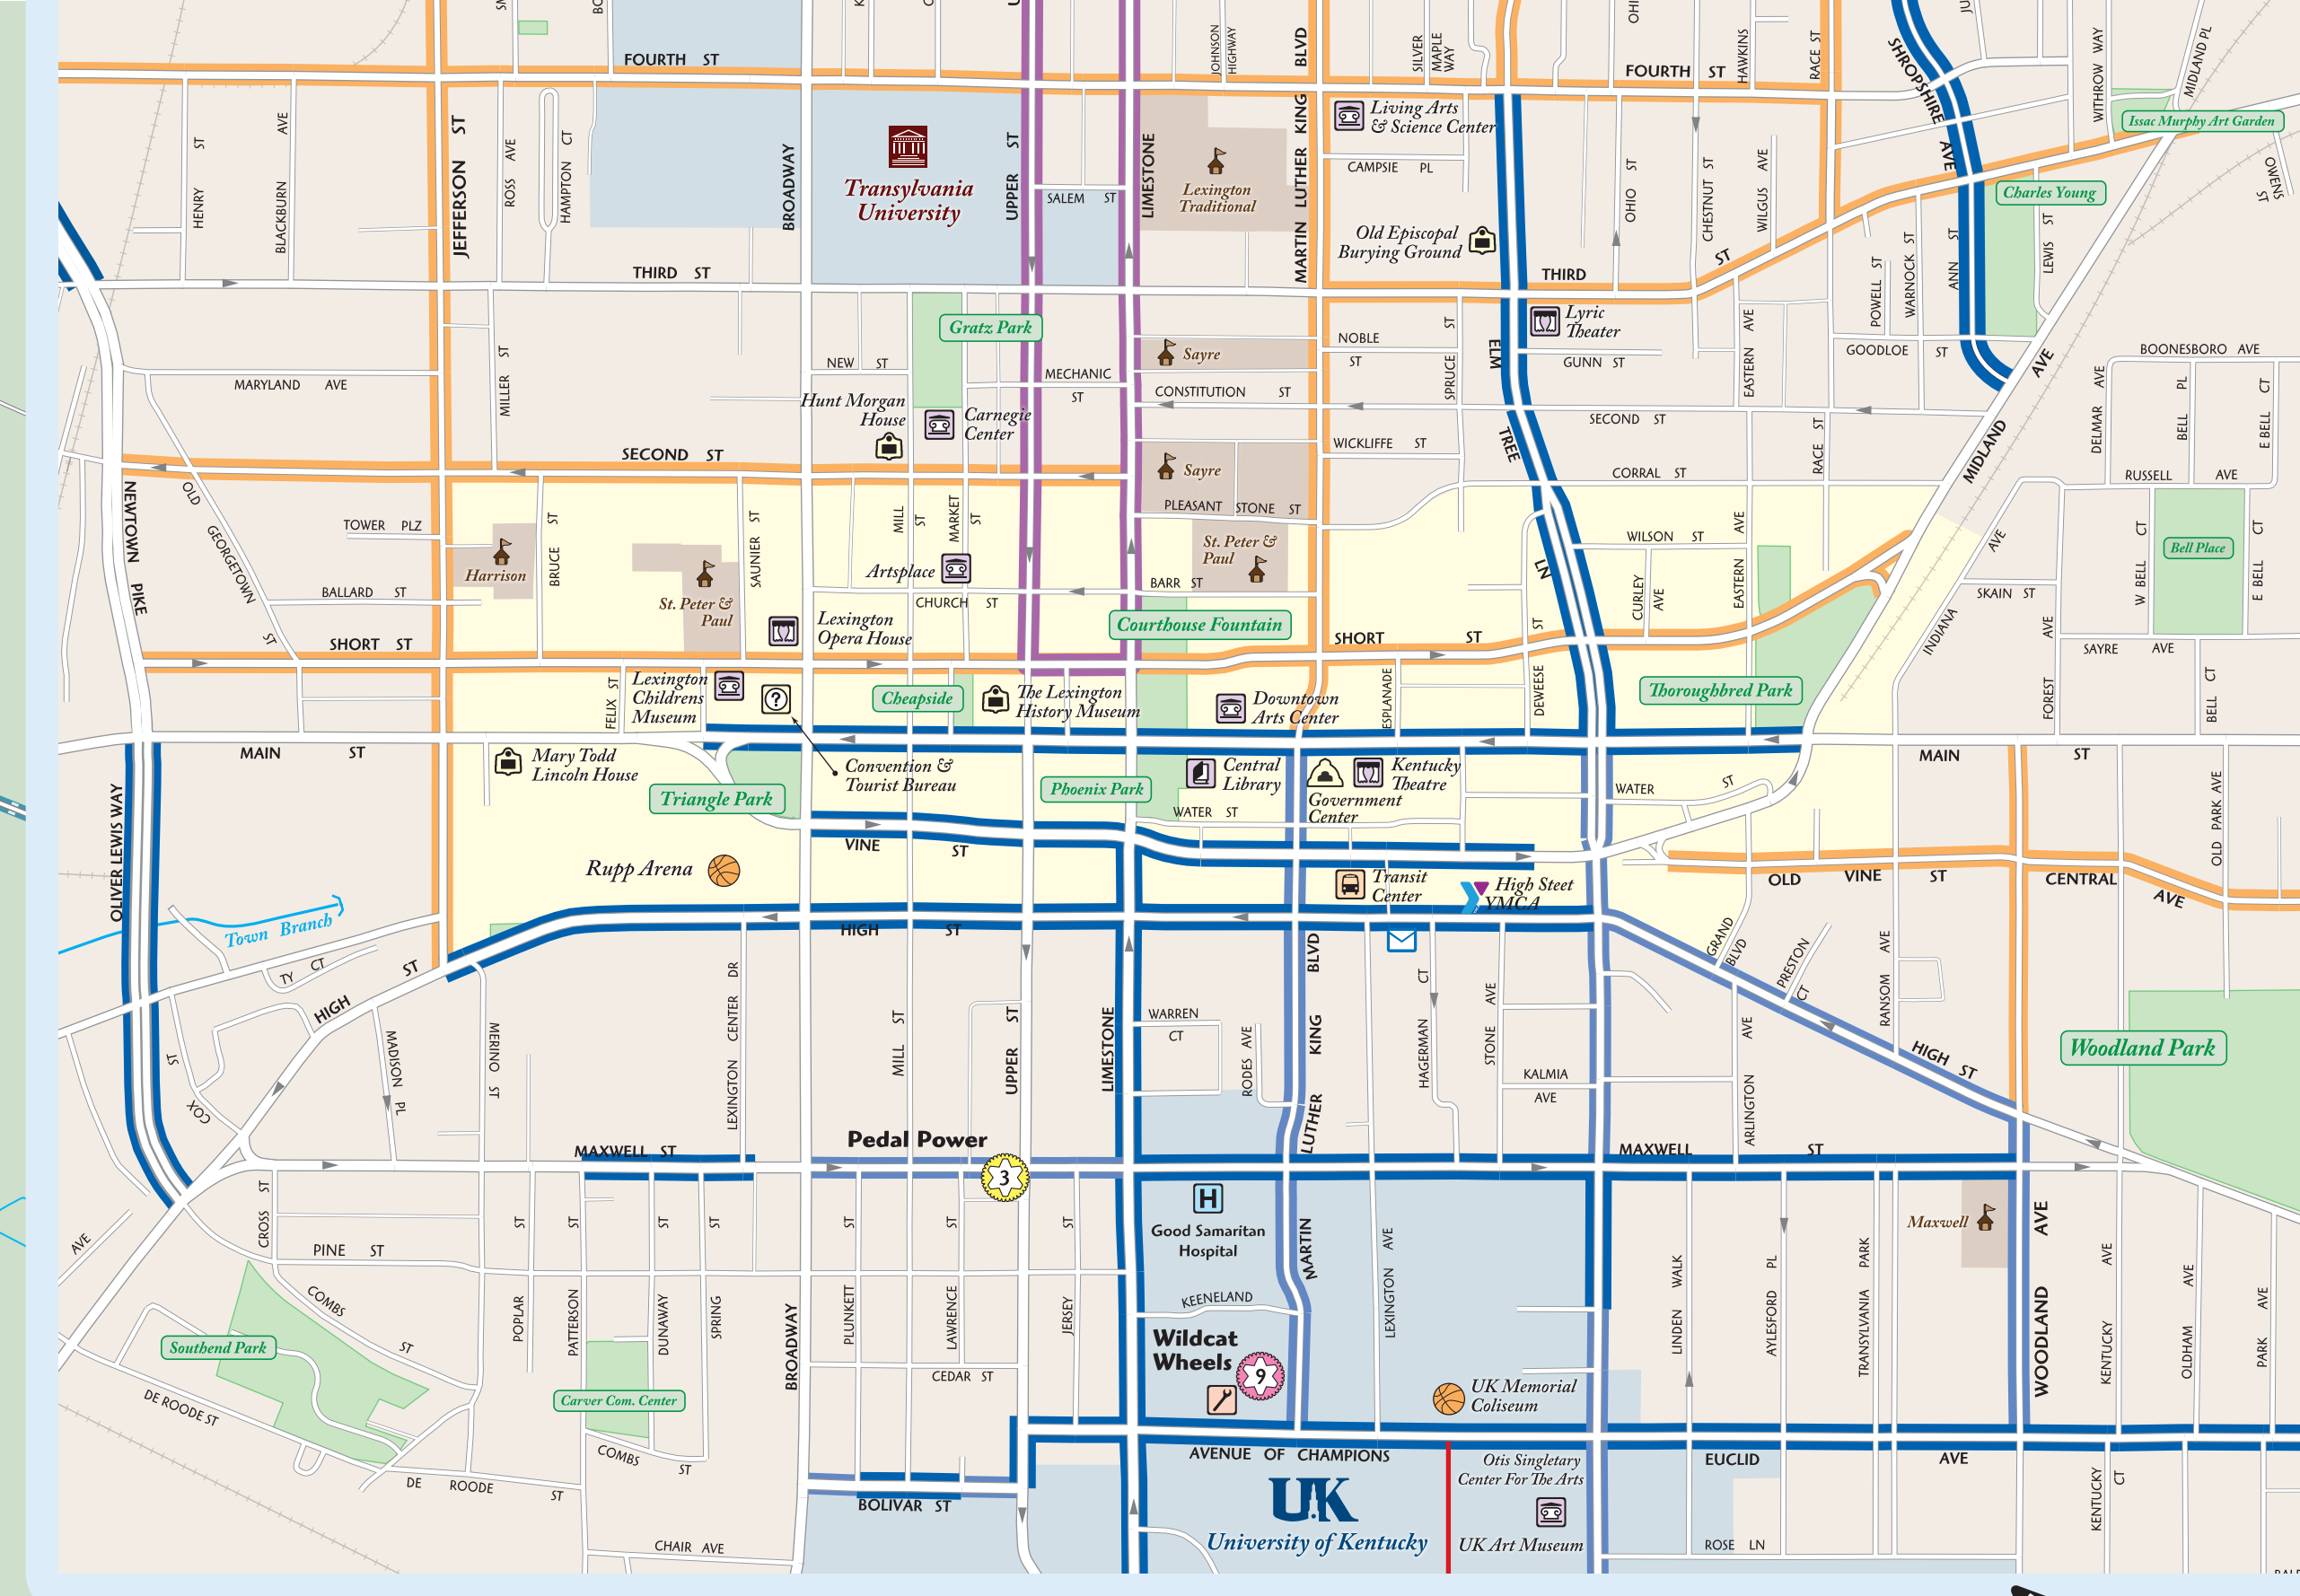

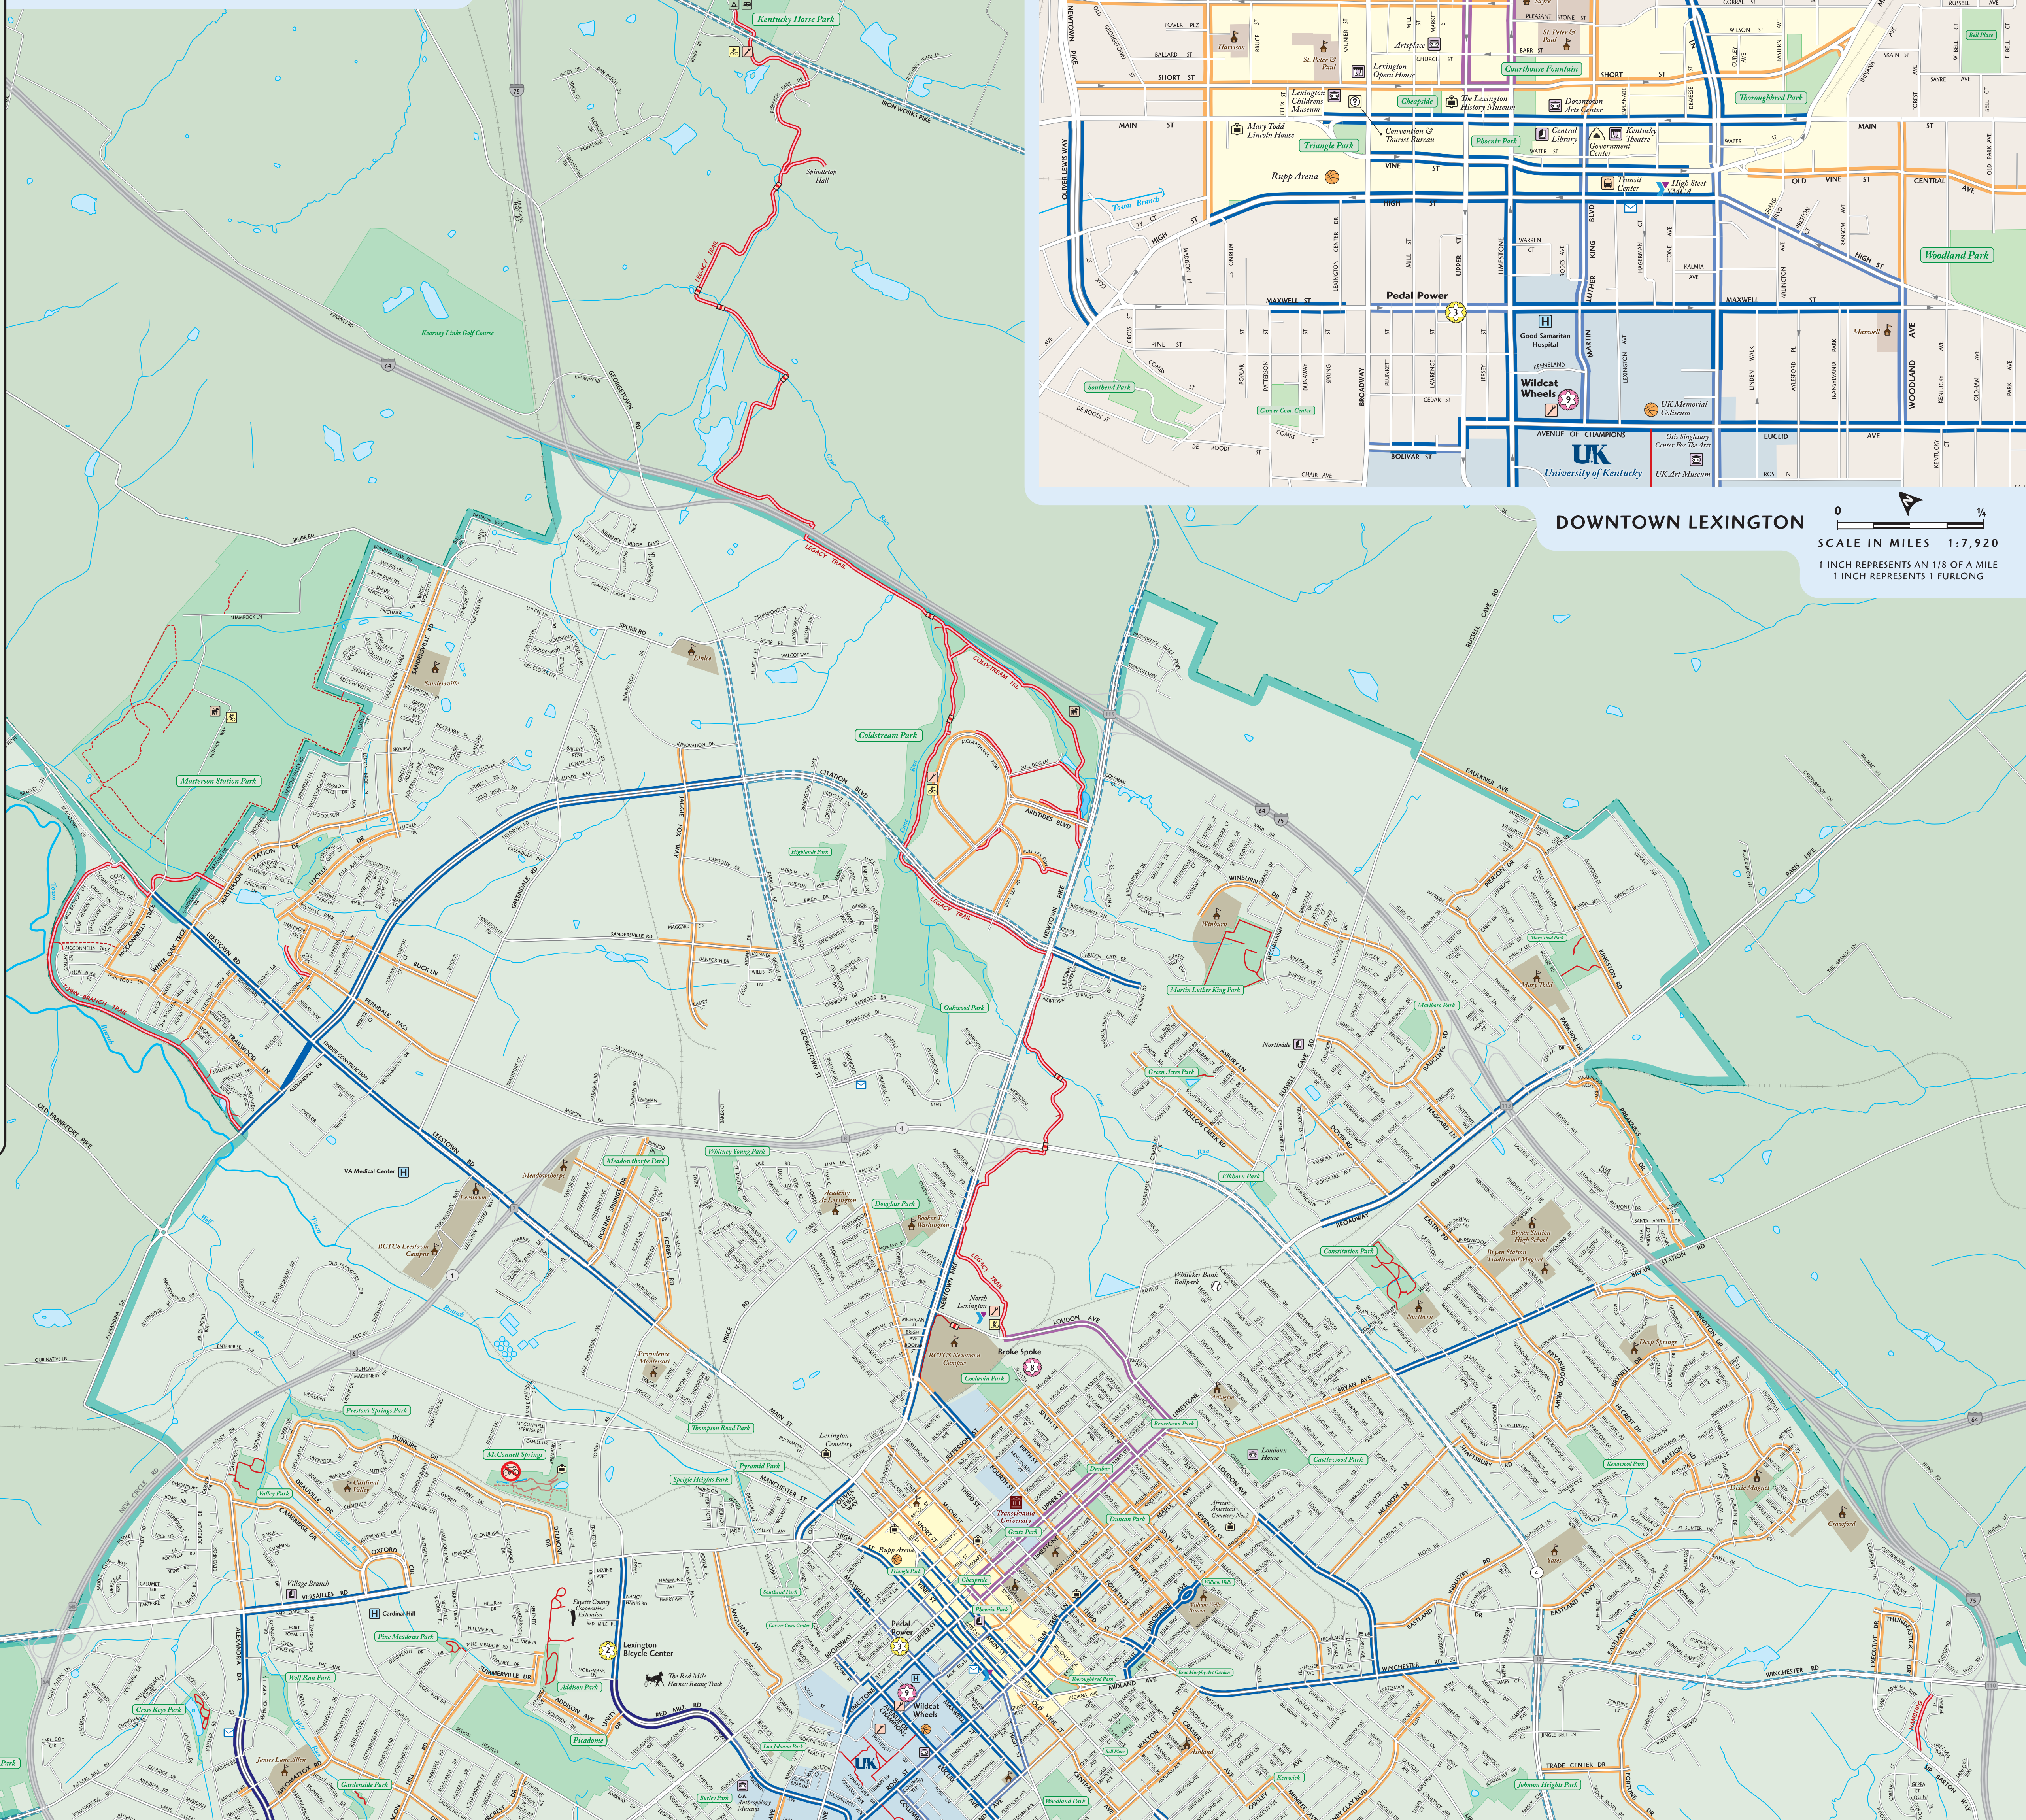

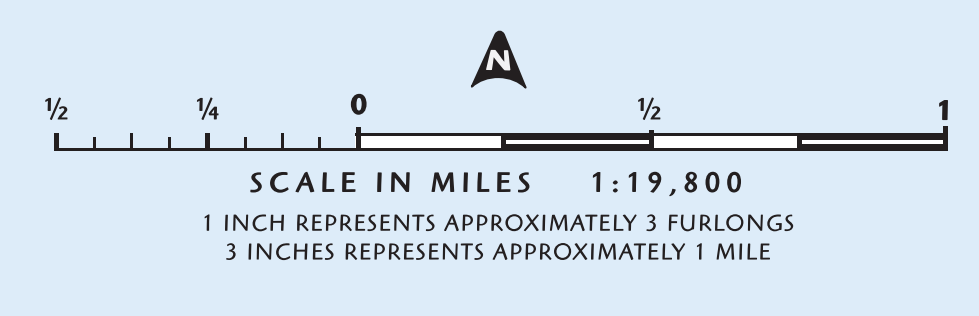

The best way to prevent bicycle theft is by locking your bicycle to one of the many racks located in the downtown and campus areas. Effectively use a bike rack as shown below.

Tips to keep your bike safe.

1. Buy the best lock you can afford. U-locks alone, or with a chain lock, offer the best protection.
2. If you cannot find a bike rack, lock your bike to a sturdy structure in a well-lit area that does not impede the travel of pedestrians or persons with disabilities.

# NORTH LEXINGTON

# Bike Lexington

A map of bicycling facilities & preferred routes in Lexington, Kentucky

Welcome to Lexington, a bike-friendly community awarded bronze-level status by the League of American Bicyclists! With more than 32 miles of bike lanes and nearly 25 miles of shared use paths across the city, a bicycle is a great way to take in our vibrant urban core, neighborhoods, and beautiful rural landscape. From the Legacy Trail to Town Branch Trail to Brighton Rail Trail and all points in-between, Lexington is actively working to enhance and connect cycling opportunities. We continue to invest in bike lanes, sharrows, colored lane markings and road signage to improve the safety of bicycling in Lexington. Enjoy the ride!

-Lexington Mayor, Jim Gray

**RULES TO SHARE THE ROAD**  
Accept the responsibilities that go along with your rights  
Kentucky laws recognize bicycles as vehicles and give you, the bicycle driver, the right to use most roads. Along with this right comes the responsibility to obey the same laws as other drivers. Understanding a few basic concepts can go a long way towards reducing the conflicts between motorists, bicyclists and pedestrians.

**Mountain Biking in Lexington**  
Veterans Park offers a professionally designed mountain biking course with 4 miles of technical single & double track trail. Visit Kentucky Mountain Biking Association's website, [kymba.org](http://kymba.org) for more information.

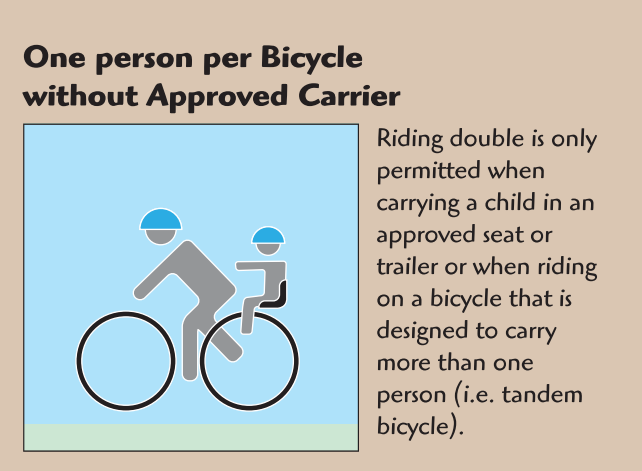

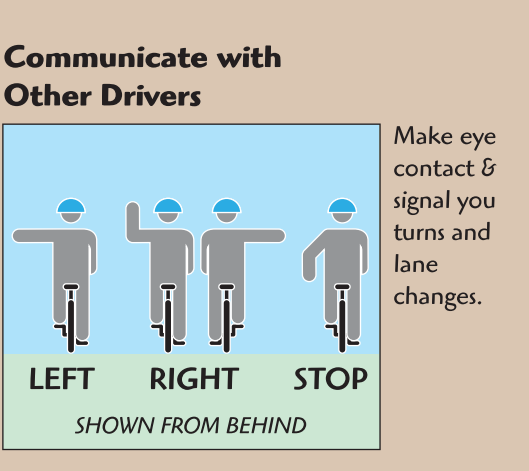

**SHARED-USE PATH ETIQUETTE**  
These paths are used by a variety of users, including bicycle commuters, recreational bicyclists, families, pedestrians and skaters. By following a few basic rules, these paths can be shared safely by all users.

**FUNDAMENTALS OF BIKE SAFETY**

**LEXINGTON'S SHARED USE TRAILS**  
As of 2012, Lexington has 23 miles of shared use trails that are off-street paved paths for non-motorized travel. An additional 7 miles of paths are planned and funded, and another 60 miles are proposed in the LFUCG Greenway Master Plan.
