#### INTRODUCTION

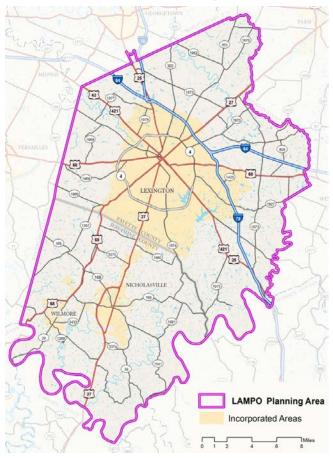

#### **ABOUT THE MPO**

Federal law requires all urbanized areas with populations greater than 50,000 people to designate a Metropolitan Planning Organization (MPO) to develop transportation plans for the region. Urbanized areas

with populations over 200,000 are designated as Transportation Management Areas or TMAs which carry additional planning and funding requirements. The Lexington Area MPO consists of Fayette and Jessamine County and the cities of Lexington, Nicholasville and Wilmore. The 2010 U.S. Census also designated a small densely populated portion of Scott County as part of the Urbanized Area and thus part of the MPO planning area.

A core function of the MPO is to ensure that local people and governments are represented in an impartial setting in an effective transportation planning process. To that end, each MPO works with federal, state and local governments, transit agencies, stakeholders and the public to ensure transportation policies, plans, projects and programs move the region forward based upon mutually agreed goals.

The MPO is responsible for four major transportation planning programs/plans that are regularly "Certified" by the Federal Highway Administration (FHWA). These plans and programs guide the allocation of federal transportation dollars in our region:

# Unified Planning Work Program

- Outlines the work activities of the MPO
- Upated annually

# Participation Plan

- Outlines strategies for effective public and stakeholder involvement
- Upated as needed or at least every 5 years

# Transportation Improvement Program

- •Short range implementation plan for projects and programs in the region (4 year horizon)
- Updated every 4 years (modified as needed)

# Metropolitan Transportation Plan

- Long range transportation plan for the region (at least 20 years)
- •Updated every 5 years

MPOs are charged with developing these plans and programs utilizing the 3Cs approach:

**Continuing:** Planning must be maintained as an ongoing activity and should address short-term needs and a long-term vision for the region.

**Cooperative:** The process must involve a wide variety of stakeholders and interested parties through a participation process.

**Comprehensive:** The process must cover all surface transportation modes and be consistent with regional and local land-use and economic-development.

The MPO functions under a committee structure that includes a decision-making Transportation Policy Committee (TPC), several technical committees, and technical staff (see chart below). The Lexington Area MPO Memorandum of Agreement (MOA) and MPO Prospectus contain detailed descriptions of the Lexington Area MPO organizational structures, partner responsibilities, policies and procedures.

# Lexington Area Metropolitan Planning Organization (MPO) **Organizational Structure**

# **Transportation Policy Committee**

Chairman: David K. West

Jessamine County Judge Executive

**Lexington-Fayette Urban County** Government:

Mayor Linda Gorton

**Fayette County, Kentucky:** 

Judge Executive Don Blevins Sr.

Jon Larson (Rep.)

City of Nicholasville, Kentucky:

Mayor Pete Sutherland Bob Amato (Rep.)

City of Wilmore, Kentucky:

Mayor Harold Rainwater **David Carlstedt** 

LFUCG Council Districts 1, 2 & 6:

Councilmember James Brown

LFUCG Council Districts 3, 5 & 11:

Councilmember Jennifer Reynolds

LFUCG Council Districts 4, 7 & 8:

Councilmember Fred Brown

LFUCG Council Districts 9. 10 & 12:

Councilmember Amanda Mays Bledsoe

Vice-Mayor / Councilmember-at-Large:

Vice-Mayor Steve Kay

Councilmember-at-Large:

Councilmember Chuck Ellinger II

Councilmember-at-Large:

Councilmember Richard Moloney

LexTran Chairman (or Representative):

Christian Motley, Chair of Board

Carrie Butler, LexTran General Mgr. (Rep.)

**KYTC Sec. of Transportation (or Rep.):** 

Jim Gray, Secretary of Transportation Kelly Baker, Chief District 7 Engineer (Rep.) Thomas Witt, KYTC Planning MPO Liaison

**Federated Transit Services of the Bluegrass:** 

**Executive Director Pam Shepard** 

**Federal Non-Voting Advisory Members:** 

FHWA: Todd Jeter, Division Administrator FHWA Representative: Bernadette Dupont

FTA: Yvette Taylor

FTA Representative: Aviance Webb

#### **MPO Staff**

**LFUCG Transportation Planning** 

Manager/MPO Director: Max D. Conyers

Administrative Officer: Kenzie Gleason

Title VI/ADA, MTP, Grants (CMAQ & STBG)

Planners:

Joseph David: Transit Planning, GIS

**Jimmy Emmons:** Traffic Impact, Travel Modeling Sam Hu: Congestion Mgmt., Air Quality **Stuart Kearns:** TIP, Performance Measures Scott Thompson: Bike and Pedestrian Parker Sherwood: Participation, MTP, et all

**Administrative Specialist: Brenda Whittington** 

# **MPO Subcommittees**

- Transportation Technical Coordination Committee (TTCC)
- Congestion Management Committee
- Bicycle & Pedestrian Advisory Committee
- Transportation Project Coordination Committee
- Other Special Committees

#### **PURPOSE OF THE UPWP:**

The UPWP is a federally required document that communicates to the public and stakeholders how their federal transportation planning dollars will be used on regional planning activities over the coming year (beginning July 1, 2020 and ending June 30, 2021). It describes how the MPO will carry out the transportation planning process including related planning activities, studies, work tasks, timelines and products. It also outlines expenditures attributed to individual work elements and the funding sources to be used.

The current federal regulation that guides MPOs in developing an annual UPWP includes 23 CFR 134 (a) & (f); 49 USC 5303(a) & (b); 23 CFR 420.111; 23 CFR 450.308; and 49 CFR 613.

#### **FAST ACT**

It has now been three years since FAST Act or "Fixing America's Surface Transportation (FAST) Act" was signed into law on December 4, 2015. This federal legislation defines ten specific planning factors for developing transportation plans and programs. This ensures the local transportation planning process is consistent with national goals and objectives including:

- Support the economic vitality of the metropolitan area, especially by enabling global competitiveness, productivity, and efficiency.
- Increase the safety of the transportation system for motorized and non-motorized users.
- Increase the security of the transportation system for motorized and non-motorized users
- Increase the accessibility and mobility options available to people and for freight.
- Protect and enhance the environment, promote energy conservation, improve quality of life, and promote consistency between transportation improvements and State and local planned growth and economic development patterns.
- Enhance the integration and connectivity of the transportation system, across and between modes, for people and freight.
- Promote efficient system management and operation.
- Emphasize the preservation of the existing transportation system.
- Improve the resiliency and reliability of the transportation system and reduce or mitigate storm water impacts of surface transportation.
- Enhance travel and tourism.

To accomplish these goals the MPO has organized our work into four focus areas: 1.0 Monitor – Coordinate – Program Development; 2.0 Transportation Systems Planning; 3.0 Land Use – Multimodal – Mobility – Forecasting; and 4.0 Program Administration.

Federal Highway Administration – Kentucky Division has "Planning Emphasis Areas (PEAs)". For FY-2021 UPWPs there are two PEAs that all Kentucky MPOs should address more thoroughly in the Transportation Improvement Program (TIP) and the Metropolitan Transportation Plan (MTP). These are:

#### TIP (23 CFR 450.326 (d))

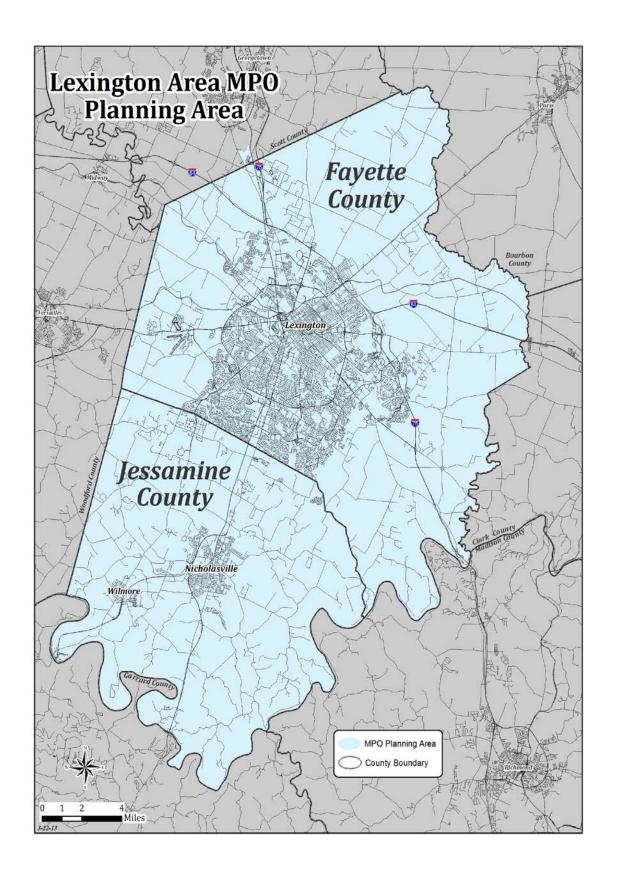

The TIP shall include, to the maximum extent practicable, a description of the anticipated effect of the TIP toward achieving the performance targets identified in the MTP, linking investment priorities to those performance targets.

#### MTP (23 CFR 450.324 (f) ((10))

Environmental Mitigation – Include a discussion of types of potential environmental mitigation activities and potential areas to carry out these activities, including activities that may have the greatest potential to restore and maintain the environmental functions affected by the MTP.

To adhere to this guidance, the Lexington Area MPO will consult and coordinate with appropriate state and local experts responsible for environmental protection, conservation, natural resources, storm water

management, land use planning and historically significant sites to consider effects of the transportation plan, as required by FAST ACT. This includes the consideration of environmental effects in its planning process and a discussion of types of potential environmental mitigation activities and areas to carry out these activities. The Lexington Area MPO will explore methods to best integrate tourism and natural disaster risk reduction, as encouraged by FAST ACT. The Lexington Area MPO will continue examining the relationship between transportation, climate change and livability as well.

# Element 1: Monitor - Coordinate - Program & Staff Development

# 1.1 A. INVENTORY / MONITOR and B. TITLE VI / ADA

#### A. INVENTORY & MONITOR

# **PURPOSE AND OBJECTIVES**

To monitor the following:

- Community growth and employment data
- Federal-state-local laws, ordinances, regulations/requirements
- Best practices, case studies and trends in travel, technology and transportation planning

To collect, update, interpret and disseminate information for regional transportation systems:

- Safety and security
- Traffic patterns and volumes
- Highway and street network and classifications
- Transit, bicycle & pedestrian networks and use
- Census and other demographic/socioeconomic data

Monitor, Evaluate, and Report performance and operating characteristics of the transportation system:

• Performance measures & targets (see individual UPWP elements for specifics)

# **PLANNING ACTIONS**

In FY 2021, the MPO staff will conduct the following activities:

- Monitor and coordinate efforts with KYTC, local and other important partners/stakeholders through regular meetings, communication and correspondence.
- Monitor, interpret and provide counts and other available traffic data to stakeholders and the public.
- Evaluate, interpret, and communicate data on bicycle, pedestrian and transit usage and rates to stakeholders as needed.
- Monitor, interpret and provide Highway Performance Monitoring System (HPMS) data and highway adequacy rating system data to stakeholders and the public.
- Monitor laws, ordinances, regulations, community values, and best planning practices.
- Maintain, update and interpret relevant Geographic Information System (GIS) data including modal transportation networks, land use patterns, census and other demographic information.
- Monitor transportation policy, literature, legislation and best design practices.
- Monitor and assess the safety and security of the transportation system by reviewing crash and incident data and by coordinating with various emergency, public safety and other relevant agencies.

# **PRODUCTS**

- o Up-to-date GIS layers and data of transportation systems, land use, census and crash data.
- Records of meetings and correspondence with partners/stakeholders documented in the LFUCG Monthly and MPO Quarterly Reports.
- o Traffic count and other information provided to various customers documented in the LFUCG Monthly Reports and MPO Quarterly Reports.
- o Report to Kentucky Transportation Cabinet (KYTC) of housing and employment changes within the Metropolitan Planning Area.

# **TIME SCHEDULE**

> All fiscal year long

# **RESPONSIBLE AGENCIES**

MPO Staff

# **B. TITLE VI/ADA**

# **PURPOSE AND OBJECTIVES**

To ensure the transportation planning process is conducted in accordance with all applicable requirements of Title VI of the Civil Rights Act of 1964, the Americans with Disabilities Act of 1990, Executive Order 12898: Environmental Justice in Minority and Low Income Populations, and Executive Order 13166: Improving Access to Services for Persons with Limited English Proficiency. The MPO is responsible for ensuring:

- Transportation services, facilities, information and other resources are distributed equitably throughout the MPO area:
- Transportation-related programs and practices do not adversely impact neighborhoods or groups;
- The selection procedure for employees, consultants, construction contractors and subcontractors is fair and equitable;
- There are efforts to obtain participation and involvement from traditionally underserved populations in the transportation planning process.

# **PLANNING ACTIONS**

- Maintain a Title VI Program Plan document.
- Maintain socioeconomic and demographic data in map overlays to evaluate proposed projects and the distribution of transportation resources and services in the community (in the TIP and MTP).
- Keep all MPO documents and processes in compliance with Title VI and ADA requirements.
- Keep local public agencies with over 50 employees within MPO area (Nicholasville and Lexington-Fayette) informed of requirement to have ADA & Section 504 Transition Plans.
- Seek Title VI and ADA representation and input in the on-going transportation planning process as outlined in the Participation Plan.
- Continue participation in the LFUCG Mayor's Commission for Citizens with Disabilities.

# **PRODUCTS**

- o Title VI Program Plan
- GIS map overlays relevant to ADA/Title VI
- MPO documents that are in compliance with all applicable federal ADA & Title VI requirements

#### **TIME SCHEDULE**

All fiscal year long

# **RESPONSIBLE AGENCIES**

MPO Staff, Lextran, LFUCG, City of Nicholasville.

## INVENTORY / MONITOR / TITLE VI / ADA - STAFFING AND COSTS UPDATE TABLE

	ELEMENT 1.0 - STAFFING	ESTIMATED COST	FUNDING SOURCE	
110	Professional Staff Months	\$112,260	FHWA / PL	\$89,807
14.0	WOTHIS	\$112,200	FTA / Sec 5303	\$0
			SLX	\$0
			KYTC	\$5,613
			LFUCG	\$16,839
	Total Cost =	\$112,260	Total Cost =	\$112,260

# 1.2 PROFESSIONAL STAFF DEVELOPMENT

#### **PURPOSE AND OBJECTIVES**

Heading into FY-2021, the MPO will be reorganized and fully staffed for the first time in many years. This presents an opportunity for redefining staff roles, areas of focus and specialty, and for cross-training. Additionally, MPO staff continue to serve dual roles as both the local LFUCG Transportation Planning staff and the MPO staff. This is always challenging as each agency (Federal, State, and Local) has priorities for the MPO and does not necessarily recognize the priorities of the others. Out of necessity, all MPO positions have multiple MPO and local transportation planning responsibilities, often out of their primary assigned areas of responsibility. These conditions make cross training and staff development essential.

The main objectives of Staff Development Element 1.2 is to build upon and continue to acquire essential knowledge of best practices, through collaboration with professional peers that staff needs to complete their work efficiently, on-time, and at a high level of quality.

# **PLANNING ACTIONS**

- The MPO Staff will seek quality technical training programs, courses, conferences, workshops, webinars, etc. in the areas of performance-based planning, transit, freight, bike/pedestrian, air quality, mobility, travel demand forecasting, site and land development, transportation impact analysis, Highway Capacity Manual procedures, geographic information systems, Intelligent Transportation Systems (ITS), public participation, congestion management and other relevant areas.
- The MPO will utilize pertinent in-house training provided by the LFUCG Division of Human Resources (at no MPO cost) to acquire training in general areas such as G.I.S., office management, computer software, writing, presentation skills, project management, time management, etc.

\*Note: Unspecified training requires an eligibility finding from the FHWA. MPO staff will seek approval from USDOT Agent/s before committing resources to such.

# **PRODUCTS**

- o Certificates for hours of completed training awarded to MPO staff members.
- o Training courses documented in LFUCG Monthly and MPO Quarterly Reports.

#### TIME SCHEDULE

All fiscal year long

#### **AGENCY RESPONSIBILITY**

MPO staff, LFUCG

#### PROFESSIONAL STAFF DEVELOPMENT - STAFFING AND COSTS

ELEN	MENT 1.2 STAFFING	ESTIMATED COST	<b>FUNDING SOURCE</b>	
5.0	Professional Staff- Months	\$41,250	FHWA / PL	\$16,629
			SLX	\$16,370
			KYTC	\$1,039
			LFUCG	\$7,211
	Total Cost =	\$41,250	Total Cost =	
				\$41,250

# **Element 2: TRANSPORTATION SYSTEMS PLANNING**

# 2.1 CONGESTION MANAGEMENT (CM) / INTELLIGENT TRANSPORTATION SYSTEMS (ITS) / & AIR QUALITY PLANNING (AQ)

# **PURPOSE AND OBJECTIVES**

<u>Congestion Management:</u> To develop and maintain a coordinated, effective and fully integrated Congestion Management Process (CMP) that is in compliance with federal requirements. There are eight components to the Lexington Area MPO CMP that address CMP federal regulations:

- 1. Establish Regional Objectives
- 2. Define the CMP Network
- 3. Establish Performance Measures
- 4. Identify Sources and Methodology for Data Collection
- 5. Identify Congestion
- 6. Develop Congestion Mitigation Strategies
- 7. Implement Selected Strategies and Manage Transportation System
- 8. Monitor and Review Strategy Effectiveness

The MPO's CMP will provide information on transportation system performance according to current federal requirements and help MPO decision-makers identify, prioritize, and implement projects and programs to alleviate congestion and enhance the safe mobility of people and goods to better meet state and local needs. The CMP will inform investment decisions when developing the Metropolitan Transportation Plan (MTP) and the Transportation Improvement Program (TIP). It will also evaluate the effectiveness of implemented actions by tracking various performance measures.

# **Intelligent Transportation Systems (ITS)**:

To continue to support and implement ITS technologies and projects to address key challenges (see below) for the transportation systems in the MPO area in coordination with LFUCG Traffic Engineering and KYTC Central Office and District-7. To support implementation of ITS projects in the architecture and jointly maintain the MPO area architecture as needed. Our ITS will supplement the Kentucky Statewide ITS Architecture.

- > ITS is people using advanced computing, telecommunications and information technology in transportation to save lives, time, and money
  - ➤ Key challenges Lexington Area MPO ITS addresses:
    - ✓ Traveler and worker safety
    - ✓ Traffic Congestion and delays
    - ✓ Planned events (roadway & bridge construction/work zones, special events)
    - ✓ Incident Management (crashes, roadway blockages)
    - ✓ Adverse weather and environmental conditions
    - ✓ Need for timely, accurate and useful traveler information
    - ✓ Security (personal as well as facility infrastructure security)
    - ✓ Transportation system performance monitoring and management

#### Air Quality:

To monitor air quality in the MPO area for continued compliance with requirements of the Clean Air Act. The Lexington MPO area is currently in attainment of all air quality standards including the pollutants ozone and particulate matter (PM); however, air quality monitor readings fluctuate year to year according to weather

patterns and the Lexington Area sometimes approaches current threshold levels. It is important to monitor these readings and stay abreast of current policy discussions about air quality standards.

# CMP / ITS / AIR QUALITY PLANNING ACTIONS

- Carry out the CMP in accordance with the adopted "Lexington Area MPO Congestion Management Process Overview" document.
- Coordinate with key implementing/operational agencies through the MPO's Congestion Management Air Quality Committee (CMAQC).
- Work with stakeholder groups to identify, acquire and utilize the best available congestion-related data to
  evaluate and monitor system performance. In FY2019, the MPO in coordination with LFUCG Traffic
  Engineering acquired INRIX Travel Data and Analytics Platform. The CMAQC will act as the professional
  forum to discuss and apply the data to develop conclusions and solutions. LFUCG Traffic Engineering and
  the MPO will utilize this cutting edge tool and data to manage congestion within the MPO area.
- Track federally required performance measures and other measures of local interest and importance. Federally required performance targets are set at the state level and have been adopted and supported by the MPO.
- Using acquired INRIX data, review congestion on the CM Network and identify and rank segments and intersections that create significant traffic congestion bottlenecks.
- Identify proposed projects, programs and strategies to reduce congestion, improve system reliability, and increase job access opportunities.
- Coordinate with the LFUCG Divisions of Planning, Engineering, Traffic Engineering, Police and the KYTC, University of Kentucky, transportation consultants, public safety agencies, and other stakeholders to help manage traffic congestion in the MPO area.
- Seek qualified consultants to assist with any highly complex and technical efforts to identify, assess, evaluate, and quantify congestion and/or to maintain the MPO's ITS Architecture.
- In coordination with LFUCG Traffic Engineering, complete update MPO ITS Architecture to supplement the KYTC Statewide Architecture (\*Note: This action will begin in FY-2020 with LFUCG Traffic Engineering Lead Project Managers).
- Maintain ITS Architecture in coordination with KYTC and other stakeholders.
- The CMAQC will review, revise if necessary, and approve sponsorship of the annual ITS/CMS projects proposal for SLX funding.
- Monitor air quality regulations and continue to coordinate with the KYTC, the Kentucky Division for Air Quality (DAQ), FHWA, LFUCG Environmental Quality and other stakeholders to ensure compliance with the Clean Air Act.
- Review local air quality monitor readings to track trends and compliance with air quality standards and report findings to the CMAQC.
- Participate in quarterly interagency group conference calls, workshops, seminars/webinars and other useful air quality related activities.
- Coordinate the application process for proposed Congestion Mitigation and Air Quality (CMAQ) projects sponsored by local public agencies. Provide guidance to applicants and assist with air quality analysis when appropriate.
- Coordinate the prioritization/ranking of CMAQ projects through MPO Committees and submit to the KYTC for final project selection.

# **PRODUCTS**

- All agendas, minutes, and supplemental information produced for each FY-2021 CMAQC meeting
- Congestion and Bottleneck Report
- o FY-2021 ITS-CMS Project Proposal
- o Fully updated ITS Architecture
- o Reports of Air quality trends analysis as needed for the Kentucky State Implementation Plan (SIP), the TIP, and the MTP.
- Air quality analysis for each FY-2021 CMAQ application
- Prioritized list of CMAQ projects submitted to KYTC

Lexington Area Congestion Management / Bottleneck Study (see below):

### Lexington Area Congestion Management / Bottleneck Study

#### Scope

Consultant services will be secured by the Lexington Area MPO to conduct a congestion management / bottleneck study along the Congestion Management Network in the Lexington Metropolitan Planning Area. The study will be guided by the Lexington Area MPO's Congestion Management Committee (CMC) and will be conducted in close coordination with KYTC District 7 and the City of Lexington Traffic Engineering and Engineering Departments. The selected consultants will analyze various sources of data including the Inrix data recently acquired by the MPO, NPMRDS, StreetLight and/or other available data sources to identify intersections and roadway segments with high rates of traffic incidents, poor travel time reliability, and the greatest duration and impact of congestion.

No less than 10 locations will be selected based on consultant analysis and guidance from the CMC for further study to identify potential lower cost, high impact improvements at these locations. Deliverables include the data analysis of multiple corridors/intersections, a prioritized list of top bottleneck locations, conceptual design analysis for the selected 10 locations and planning level cost estimates for all proposed improvements.

#### **Cost & Schedule**

Total estimated cost is \$225,000 using federal PL funds and toll credits for match. The project will commence after July 1, 2020 and will be completed within 12 months. The Lexington Area MPO will manage the project.

#### TIME SCHEDULE

FY-2021 ITS-CMS Project Proposal > February 2021

FY-2021 ITS-CMS Project Completion Date > March 2021

FY-2021 ITS Architecture Update > Completed by June 30, 2020

FY-2021 Lexington Area Congestion Management / Bottleneck Study > Completed by June 30, 2021.

Other Planning actions and products – continuous all fiscal year

#### **RESPONSIBLE AGENCIES**

Main agencies are: Lexington Area MPO; LFUCG Division of Traffic Engineering; LFUCG Division of Engineering, KYTC and KYTC District 7, Lextran, Kentucky DAQ, and various other consultants and stakeholders.

#### CONGESTION MANAGEMENT / ITS / AIR QUALITY PLANNING - STAFFING AND COSTS

	ELEMENT 2.1 STAFFING	<b>ESTIMATED COST</b>	FUNDING SOURCE	
10.5	Professional Staff-Months	\$97,100	FHWA / PL	\$0
			FTA / SEC. 5303	\$0
			SLX	\$77,680
			KYTC	\$0
			LFUCG	\$19,420
	Total Cost =	\$97,100	Total Cost =	\$97,100
	<b>Lexington Area Congestion</b>		Federal FHWA/MPO PL>	\$225,000
	Management / Bottleneck	\$225,000	*Match=KYTC Toll Credit	
	Study		Total >	\$225,000

# 2.2 METROPOLITAN TRANSPORTATION PLAN (MTP)

#### **PURPOSE AND OBJECTIVES**

The metropolitan planning process establishes a framework for making transportation investment decisions. The Metropolitan Transportation Plan (MTP) documents and reflects this process. It identifies goals, strategies and projects to be implemented over (at least) a 20 year horizon and establishes a fiscally balanced regional vision that reflects input of the public and key stakeholders to achieve a multimodal transportation system that moves people and goods efficiently.

The new updated 2045 MTP was approved on April 24, 2019 and will be in effect for a five year period from this date. Therefore, implementation of this plan will continue to be the major work focus during FY-2021. At the same time, the MPO will begin work to maintain and develop the next MTP. On-going MTP policies, projects, plans and studies will be a focus of FY-2021.

## **PLANNING ACTIONS**

# 1. Maintain and implement the 2045 MTP:

- Modify and amend the MTP as needed to program projects into the TIP and STIP.
- Amend or modify the MTP to reflect the finalized 2020 Six Year Highway Plan including projects, funding sources, and phasing.
- Coordinate all MTP project implementation efforts with local and state agencies and other key partners through the bi-monthly "Project Coordination Team" Meetings. The purpose of this team is to help streamline project delivery, reduce delays, avoid mistakes, integrate projects and save public funds.
- Work with regional partners and stakeholders to develop and implement the MTP through coordinated regional transportation planning, operations, maintenance, special studies and project development. Stakeholders include:
  - KYTC Central Office Division of Planning and other KYTC Transportation Cabinet Divisions
  - KYTC District 7
  - LFUCG Planning, Traffic Engineering, Engineering, and other LFUCG agencies
  - Jessamine County Fiscal Court
  - Jessamine County Transportation Task Force
  - The cities of Nicholasville and Wilmore
  - Bluegrass Area Development District (BGADD)
  - Other surrounding counties (various organizations)
  - Lextran the Transit Authority of Lexington
  - Para-transit agencies serving the area (FTSB, BUS)
  - UK Parking and Transportation, Transportation Research Center, and UK Engineering
  - Various other advocates and agencies
- Coordinate with KYTC to implement the 2020 State Highway Plan. Continue to coordinate all necessary efforts with KYTC for on-going and next phases of KYTC Project Prioritization efforts.
- Update, edit, and maintain the Lexington Area MPO CHAF List (Continuous Highway Analysis Framework) in a format to be stipulated by KYTC.
- The MTP will describe potential environmental mitigation measures to address both human and natural environmental factors. See pages 6 & 7 above regarding FHWA PEA's (Points of Emphasis) MTP (23 CFR 450.324 (f) ((10)). The MPO will involve resource agencies to help assess environmental impacts associated with implementing the MTP, and to help identify potential mitigation measures that may be needed at the system wide level. If necessary, the MTP can then be adjusted to minimize negative impacts. The best available mapping resources (natural, historic, etc.) will be used to help avoid negative impacts.
- Assist other area agencies in developing comprehensive land use plans, small area studies, corridor studies and other special studies to cooperatively implement the MTP. Ongoing initiatives with MPO involvement include:

- Downtown Lexington Planning and Project Development Efforts and Implementation
- US-27 Access Management Project Development and Implementation
- Jessamine County Pedestrian and Bike Systems Projects Development and Implementation
- Nicholasville Eastern Bypass Implementation
- Implementation to advance the recommendations of the Lextran Transit Alternatives Analysis
- Lextran Comprehensive Operational Analysis and Long Range Transit Plan implementation and other transit related studies
- Other Lextran federal grant programs
- Lexington / Fayette Comprehensive Land Use Plan Implementation
- LFUCG Zoning Ordinance Updates (to support Comprehensive Land Use Plan)
- Lexington / Fayette County Small Area Plans development and implementation (e.g. Hamburg/Winchester Road/Man o' War Area – Beaumont Area, Others)
- Jessamine County/Nicholasville/Wilmore Comprehensive Land Use Plan Updates
- Jessamine County transportation projects (from MTP, TIP, and other sources)
- Versailles Road Corridor projects
- Scott Street Connecter (last phase of the Newtown Pike Extension project)
- University of Kentucky Master Plans and Bike/Ped Master Plans implementation
- Transportation Equity (i.e. ADA Transition Plans) and Title VI plans
- Bicycle and Pedestrian Master Plan implementation
- Lexington Infill & Redevelopment Plans

#### 2. Performance Targets:

• Federal performance targets requirements will be fully in effect during FY-2021; therefore, the MPO will support the KYTC and Lextran to achieve their targets. The MPO will coordinate with KYTC on monitoring, evaluation, and reporting tasks associated with these Performance Management System requirements. The setting of safety targets or supporting of KYTC targets is required each year.

#### **PRODUCTS**

- o MTP administrative modifications and amendments completed.
- o An up-to-date CHAF list/database to be utilized by KYTC for future SHIFT or other prioritization processes.
- Safety Performance Targets Review and update as necessary.

#### **TIME SCHEDULE**

Safety Performance Targets Updated – by February 27, 2021

#### RESPONSIBLE AGENCIES

The Lexington Area MPO. Partner stakeholders are listed above and interagency consultation/coordination partners and their agreed responsibilities are listed in the new MPO Memorandum of Agreement (MOA) and Prospectus in this document.

# METROPOLITAN TRANSPORTATION PLAN – STAFFING AND COSTS

<u>EL</u>	EMENT 2.2 STAFFING	ESTIMATED COST	FUNDING SOURCE	
6.0	Professional Staff-Months	\$47,376	FHWA / PL	\$21,897
			FTA / SEC. 5303	\$0

# Element 3. LAND USE - MULTI MODAL - PARTCIPATION / OUTREACH - FORECASTING

#### 3.1 TRANSPORTATION/TRAFFIC and LAND USE IMPACT ANALYSIS

#### **PURPOSE AND OBJECTIVES**

To provide input and transportation planning expertise to the on-going Comprehensive Land Use Planning and land development approval processes in Fayette and Jessamine County. This includes informing Small Area and Corridor Land Use Plans, weighing in on the traffic impacts of proposed zone changes, commenting on transportation system needs/improvements as part of Subdivision and Development Plans, and reviewing/writing Zoning Ordinance Text Amendments as needed to implement desired transportation planning outcomes. This work will result in informed land use development, design and access decisions for the safe, efficient, cost savings and quality access and mobility for people and goods now and in the future. Also, to develop more integrated, complete and connected transportation systems.

#### **PLANNING ACTIONS**

- Review and give input to current, updated, and future land use plans/proposals within the MPO area to integrate and reconcile these plans with the MPO transportation planning process (within the Fayette County process and Jessamine as requested/invited).
- Participate in Comprehensive Plan updates, modifications, amendments, and implementation within the MPO area.
- Coordinate with LFUCG to guide the Nicholasville Road Corridor & Planning Study, a comprehensive transportation and land use corridor study that will utilize federal Planning (PL) funding approved in FY 2019. MPO staff has approved the scope of work, issue a request for proposals, and participated in the consultant selection and contract negotiations. Throughout FY-21, the MPO staff will manage the work for the duration of the project.
- Assist various planning agencies, applicants and their representatives with traffic counts, site
  circulation studies, capacity and level-of-service analysis, corridor studies and traffic impact study
  reviews.
- Provide input, as requested, on proposed zone changes, Board of Adjustment requests, and subdivision and development plan submittals. This includes plan review, providing staff reports and participating in Technical, Subdivision, Zoning and Planning Commission meetings/hearings.
- Assist land use developers in understanding and meeting the requirements of the LFUCG "Traffic Impact Study Ordinance" for zone change proposals.
- Participate in transportation, corridor, and other studies that arise within the MPO area and report findings of those studies to the TPC for consideration and inclusion in the MPO TIP and MTP.

#### **PRODUCTS**

- Technical memoranda containing the Transportation Planning/MPO staff's findings on subdivision and development plan, zone changes and traffic impact studies provided to the LFUCG Planning staff, LFUCG Planning Commission, Lexington-Fayette Urban County Council, and the LFUCG Board of Adjustment.
- A completed and approved Nicholasville Road Transportation Corridor and Land Use Study (completed by June 30, 2021). Funding not spent in FY 2020 will carry over to FY 2021. \*Note: See US-27/Nicholasville Corridor/Land Use Study section below for more detailed project description and general scope of work. See page 34 for project funding summary.

#### US-27 / Nicholasville Road Corridor/Land Use Study:

The Lexington Area Metropolitan Planning Organization (MPO), in partnership with the City of Lexington's Division of Planning, is seeking proposals from qualified professional planning firms to complete a coordinated corridor land use plan and transportation study for US 27 / Nicholasville Rd from downtown Lexington to the southern Fayette County line. The primary purpose of the study is to identify how incremental densification of the corridor relates to phased mass transit improvements with the ultimate goal of bus rapid transit (BRT) viability.

# Study Scope

- Identify opportunities for intensifying residential and mixed land uses along the corridor.
- Identify potential impacts and solutions for transit, non-motorized and vehicular travel that will result from more intensive land uses.
- Estimate the costs and recommend phasing of needed transportation improvements and their relationship to densification thresholds.
- Prepare a detailed regulatory framework for implementing the plan including site specific land use recommendations and corridor-based design guidelines and/or standards.
- Facilitate public and stakeholder engagement.

# Project Goals / Outcomes

- Increase the intensity of land uses along the corridor, particularly residential uses, in order to accommodate population growth through the more efficient use of land.
- Improve mass transit viability through more intense redevelopment and transit/pedestrian oriented design.
- Improve safety and connectivity for all modes of transportation.
- Coordinate transportation improvements with future redevelopment opportunities.
- Develop a cohesive sense of place along the corridor.

# Tasks / Products

- 1) Existing conditions review/report
- 2) Case study review/report
- 3) Public & stakeholder engagement
- 4) Redevelopment and land use scenarios
- 5) Conceptual plans for catalyst sites
- 6) Neighborhood transitions & connectivity
- 7) Identify transportation impacts and potential solutions
- 8) Develop a prioritized list of transportation improvements
- 9) Street cross-sections
- **10)** Develop a regulatory framework for plan implementation
- **11)** Identify innovative strategies for plan implementation
  - \*Note: See page 19 for study funding summary

#### Southeast Fayette - Northeast Jessamine MPO Area Connectivity Study:

#### Study Scope

Consultant services will be secured by KYTC to conduct a study of connectivity and mobility in southeast Fayette county and northeast Jessamine county. This area has experienced rapid growth in recent years, and a lack of safe and adequate east-west connectivity south of Man o' War Boulevard has been an increasing concern of the traveling public and local officials for many years. With the impending completion of the East Nicholasville Bypass, geometrically undesirable local rural roadways are forecast to handle upwards of 17,000 vehicles per day as a "shortcut" between I-75 and Nicholasville. Potential options for improving connectivity and safe mobility in this area will be explored. Deliverables will include a prioritized list of potential

improvement options and cost estimates. Any potential improvement options will not include a new Kentucky River crossing.

#### Study Schedule

The project will be completed within 12 months from the notice to proceed which occurred in FY- 2020.

#### Study Cost

Total estimated cost is \$250,000 using federal PL funds and toll credits for match.

KYTC will manage the project with active involvement by LAMPO Staff.

# 3.1 TIME SCHEDULE

- ➤ The US-27/Nicholasville Road Corridor/Land Use Study will begin in FY-2019 and be completed by June 30, 2021, FY-2021.
- ➤ The Southeast Fayette Northeast Jessamine MPO Area Connectivity Study will be completed by September 30<sup>th</sup>, 2021.
- ➤ All other Element 3.1 activities and tasks will occur throughout FY-2021.

#### **RESPONSIBLE AGENCIES**

The MPO will be the lead agency for the US-27 Nicholasville Road Corridor / Land Use Study.

The KYTC will be the lead agency for the Southeast Lexington, Northeast Jessamine Area Connectivity Study. The MPO Transportation Planning staff in coordination with other LFUCG agencies, KYTC Central Office Planning, KYTC District 7, Jessamine County, or other agencies where analysis is needed will be responsible for this overall work element.

TRANSPORTATION / TRAFFIC and LAND USE IMPACT ANALYSIS - STAFFING AND COSTS

# 3.2 MULTI MODAL / STP BLOCK GRANT PROGRAM PLANNING

The MPO will work to implement programs, policies and projects to advance bicycle and pedestrian initiatives and to improve freight movement. The MPO will also coordinate the STP Block Grant Program including the locally-adopted funding application and selection process to award STP Block Grant funds that are sub-allocated to the Lexington Area MPO.

# **BIKE - PEDESTRIAN PLANNING and FREIGHT MOVEMENT**

# **PURPOSE AND OBJECTIVES**

In January 2018, a new Regional Bicycle and Pedestrian Plan (BPMP) was completed and adopted by the MPO. This plan provides the framework for this work element and outlines goals and objectives for bicycling and walking

improvements in the region. The MPO Staff will continue to coordinate with stakeholders and partnering agencies to implement the BPMP with goals to increase bicycle and pedestrian access and mode share; develop safe, high quality, connected bicycle and pedestrian facilities; and to promote and increase their use. Safe and efficient freight movement will be considered in this planning element as well.

For desired outcomes during FY 2021 the MPO staff will:

- Seek and/or apply for new and innovative funding sources
- Coordinate with new development and re-development to achieve appropriate bike and pedestrian facilities and connectivity
- Coordinate with new roadway projects to include appropriate bike and pedestrian facilities and connectivity
- Work to implement policies, programs, and projects listed within the 2018 Bike and Pedestrian Master Plan and the Jessamine County School Connector Study

#### A. BIKE AND PEDESTRIAN PLANNING

# **PLANNING ACTIONS**

During FY-2021 the MPO will accomplish the following bicycle and pedestrian planning tasks in three main areas:

#### **Facility Development**

- Manage and/or assist with planning, prioritizing and implementing sidewalk, trail and bicycle facilities. This includes completing feasibility/safety studies and other project design work to advance BPMP projects. Focus areas in FY 2021 will include implementing the near-term/priority BPMP recommendations and priority projects from the Jessamine County Bike and Pedestrian Connectivity Study (completed in FY-2017).
- Review and provide input on land use planning and new development applications to ensure bicycle
  and pedestrian circulation and connectivity. Work to update local zoning and subdivision
  regulations to increase bicycle and pedestrian-friendly design outcomes.
- Lead and/or assist with funding applications for bicycle and pedestrian projects (e.g. TAP, CMAQ, etc.).
- Lead and/or assist in developing and updating design and maintenance standards for pedestrian and bicycle facilities.
- Maintain and update GIS database for existing and planned bicycle and pedestrian facilities.
- Lead and/or assist in bicycle & pedestrian safety initiatives including the LFUCG Pedestrian Safety Working Group and public outreach efforts.

# Promotion, Education & Outreach

- Act as a public contact for, and respond to public requests for bicycle and pedestrian information.
- Engage in public education and promotion efforts to increase awareness and safety related to bicycling and walking including media interviews, advertising, community presentations, events, brochures, websites, social media, etc.

#### **Agency & Stakeholder Coordination**

- Coordinate and act as point of contact for bicycle and pedestrian information for various standing committees (MPO Committees/Subcommittees, LFUCG Technical/Subdivision Planning Committees, etc.)
- Coordinate bicycle/pedestrian activities with local, regional and state agencies to advance projects and outreach efforts (City/County Parks, Engineering, Traffic, Police Departments; Elected Officials; Planning Commissions; Area Development Districts; KYTC District/Central Office; Public Schools, Health Departments, etc.).
- Continue and develop new alliances and relationships with private businesses and non-profit organizations to advance bicycle and pedestrian projects, programs, policy, outreach, and safety (bike shops, tourism agencies, bicycle clubs, etc.).

 Coordinate, help facilitate, and provide knowledgeable oversight on policy and program development and implementation of shared mobility device programs (bike share, e-bikes and scooter sharing program).

#### **PRODUCTS**

- o Locally adopted policies, rules, regulations fees, etcetera for shared mobility device programs and documented in local ordinance.
- Up-to-date data within databases and GIS mapping of existing and planned bicycle/pedestrian facilities.
- List of media outreach/marketing efforts, presentations, events and number of people reached reporting in MPO quarterly reports.
- o Up-to-date and relevant bike/pedestrian websites and social media. Reports on the number of hits, members, followers, etc. in MPO quarterly reports.
- New updated interactive bike facilities map.
- o Design Manual updated with new design and maintenance standards.

#### TIME SCHEDULE

- New updated interactive bike facilities map by June 30, 2022.
- > Design Manual updated with new design and maintenance standards by June 30, 2022.
- > Other products updated/improved continuously all fiscal year.

#### **B. FREIGHT MOVEMENT**

# **PUROPSE AND OBJECTIVES**

To review freight movement and perform monitoring, research, inventories, data and safety analysis to ensure the efficient and safe movement of goods within the Region - To monitor and stay abreast of regional air transportation needs and trends – To coordinate with transportation improvement projects that implement safe and efficient freight movement

# **PLANNING ACTIONS**

- Monitor, identify and analyze critical freight corridors and freight movement within the MPO area.
- Educate the general public and decision makers on freight issues (such as safety and security issues) and needed freight projects.
- Utilize the freight resources of the KYTC and FHWA to enhance freight planning within the on-going transportation planning process.
- Seek involvement from the freight community and maintain a database of freight contacts.
- Utilize the Travel Demand Forecasting Model and use the model's freight assignment capabilities to analyze freight travel demand for planning activities and project development.
- Attend Bluegrass Airport Board Meetings to coordinate and stay abreast of regional air transportation and air freight needs and trends.
- Coordinate with the KYTC and BGADD in the updating, maintenance, and implementation of their statewide and MPO area Freight Plan.
- Coordinate with the KYTC to report freight performance measures (Truck Travel Time Reliability data) for the MPO area to track progress on achieving state performance targets in compliance with the FAST Act.
- Identify key freight corridors in consultation with KYTC as part of the National Highway Freight Network system and maintain updated maps of these corridors.
- Travel Demand Modeling analysis of transportation projects and plans that include truck assignments on the scenario networks.
- Develop an updated "Freight Plan" for the MPO Area. This plan will be conducted in-house with FY-2021 Planning funds by our MPO Transportation Planners.

#### **PRODUCTS**

- o Database of freight contacts.
- o Annual reporting of Truck Travel Time Reliability data for the MPO area.
- o Updated MPO Area Freight Plan

#### **TIME SCHEDULE**

- MPO Area Freight Plan updated/completed by June 30, 2021
- > All fiscal year long

# C. SURFACE TRANSPORTATION PROGRAM (STP) BLOCK GRANT PROGRAM (Previously TAP)

## **PURPOSE AND OBJECTIVES**

To administer a federally compliant competitive selection process for awarding STP Block Grant Program setaside funds that are sub-allocated to the MPO.

#### **PLANNING ACTIONS**

- Distribute STP Block Grant Program application guidelines specific to the MPO that are in compliance
  with federal rules and regulations. The guidelines will outline the MPO's process for soliciting project
  applications from eligible local agencies and establish how the MPO will prioritize, select and award
  projects.
- As funding is available, conduct a call for projects, provide technical assistance to applicants, prioritize projects and make recommendations to the Transportation Policy Committee regarding project awards. Upon TPC approval, the MPO will complete TIP modifications and submit a notice of award to the KYTC Office of Local programs and to project applicants for further action.
- Monitor STP Block Grant Program funding levels and coordinate with Local Public Agencies to ensure timely progress on implementing awarded projects.

#### **PRODUCTS**

- o A competitive selection process that is compliant with federal rules and regulations.
- o A solicitation for project applications from eligible entities in the MPO area.
- o A completed list of awarded projects by the MPO TPC.
- o Required TIP modifications and award notices to KYTC and project applicants.

# **TIME SCHEDULE**

An application cycle will be held in coordination with the KYTC as adequate amounts of STP Block Grant Program set-aside funds become available. Timing of the application cycle is at the discretion of the MPO.

#### **RESPONSIBLE AGENCIES for ELEMENT 3.2**

MPO staff in coordination with the LFUCG Division of Planning, Transportation Planning, KYTC, Bluegrass Airport, LFUCG Divisions of Engineering, Traffic Engineering, and other agencies

#### 3.2 MULTI MODAL / TRANSPORTATION ALTERNATIVES PLANNING - STAFFING AND COSTS

	ELEMENT 3.2 STAFFING	ESTIMATED COST	FUNDING SOURCE	
13.0	Professional Staff-Months	\$98,295	FHWA / PL (80%)	\$7,911
			FTA / SEC. 5303	\$0
			SLX	\$70,723
			KYTC	\$494
			LFUCG	\$19,164
	Total Cost =	\$98,295	Total Cost =	\$98,295

#### 3.3 TRANSIT PLANNING

#### **PURPOSE AND OBJECTIVES**

To provide ongoing transit planning support, coordination, and funding resources to federally-funded transit agencies in the Lexington Area including the Lexington Transit Authority of Lexington (Lextran) and their paratransit service provided by the American Red Cross (Wheels), as well as the Federated Transit Services of the Bluegrass (FTSB), and Bluegrass Ultra-Transit Service (BUS - Jess-Lex and NichTran). The MPO also seeks to assist with the development and implementation of transit enhancement plans and programs for desired outcomes including:

- Functional off-bus shelters and facilities
- Safe and functional bus stops/pickup points
- Safe, functional, and efficient bus transfer points
- New, infill, and re-development with transit facilities and connectivity considered and included in the review and implementation process
- Regional transit support and coordination

#### **PLANNING ACTIONS**

- Coordinate with Lextran, public and private partners to help plan, fund, design, permit and construct off bus facilities such as bus stops, connecting sidewalks, ramps/landing pads, signage, shelters, benches and other amenities.
- Assist Lextran in coordinating when needed with the many and various LFUCG Divisions and entities.
- Review zone changes, subdivision and development plans for transit accommodations and improvements. The MPO will bring Lextran into the conversation as necessary.
- Work to incorporate "transit oriented design" (TOD) regulations and guidelines into development codes.
- Provide documentation, maps, guidance, administrative, and other on-going assistance to Lextran and other federally-funded transit entities in the MPO area as needed.
- Assist with assessing and analyzing transit improvements to implement transit system plans.
- Work to improve the interconnectivity of transit, pedestrian and bicycle systems.
- Assist in achieving meaningful public input, analyzing and helping to resolve public transit concerns/issues.
- Provide assistance to Lextran in evaluating various bid proposals, preparation of grant applications and other administrative work as requested.
- Work with Lextran to prioritize, program, and implement short and long range transit plans and projects in the TIP and MTP.
- Coordinate with Lextran to demonstrate fiscal balance within the transportation planning process as illustrated in TIP and MTP.
- Work to increase transit ridership as a component of the Congestion Management Process.

- Continuously review transit laws, issues, best practices and case studies.
- Provide assistance to Lextran, Wheels, FTSB, Bluegrass Ultra-transit Service (BUS) and other transit and para-transit providers to develop a Coordinated Public Transit Human Service Transportation Plan. The goal of the Coordinated Plan is to improve transportation services and mobility for persons with disabilities, older Americans, and individuals with lower incomes. The Plan is used to prioritize and award federal funding to projects that will address gaps in service for these populations.
- Coordinate with Lextran to update Title VI plans as required and meet all federal requirements.
- Coordinate with Lextran and other transit provider agencies to maintain, monitor, and utilize Performance Targets related to Transit Asset Management and Transit Safety.
- Continue assistance to Lextran and their consultants to maintain and utilize the new GIS-based transit route facilities inventory database developed jointly in FY-2018 to prioritize projects and funding.
- Assist Lextran in completing and submitting CMAQ and TAP applications.
- Assist Lextran in completing a Comprehensive Operational Analysis with 5303 funds in FY 20-21 the scope of which is described below under 3.3 Transit Planning "Products."

# **PRODUCTS**

- A list of transit projects and FTA funds that are implemented through the MPO TIP and MTP.
- An up-to-date and compliant "Coordinated Public Transit Human Services Transportation Plan" developed in consultation with the MPO and regional transit providers.
- o An up-to-date and compliant Title VI Program Plan with required public transit items included.
- o GIS-based "Transit Route Facilities Inventory Database" that is up-to-date and maintained.
- o Approved construction designs, encroachment permits and utility relocations for bus stop improvements.
- o A Comprehensive Operations Analysis for Lextran as described in the Scope of Work below:

#### **Lextran Comprehensive Operations Analysis**

Lextran serves people and our community with mobility solutions. Lextran stands ready to conduct a comprehensive operations analysis that will ultimately provide a path to better align resources and service demands. Comprehensive operations analyses typically have a five-year horizon for recommended projects, and Lextran's most recent comprehensive operations analysis was completed in 2014. The purpose of this comprehensive operations analysis project is to answer difficult questions about how transit service is produced and consumed in Lexington-Fayette County, such as determining if service is being provided in the appropriate areas with adequate frequency at the appropriate times of day. This project description outlines a wish list of topics that will be used to develop a scope of work with a selected consultant and will be scaled based upon available funding. This comprehensive operations analysis project will provide vision and direction until 2025, covering the following themes:

#### Phase I: Existing Conditions

- o Organize existing data to detail existing conditions
  - Operations and ridership of fixed-route, paratransit, and rideshare services; including fleet needs
  - Land-use and development patterns in Fayette County
  - Local market conditions driving transit and transportation demand
  - Regional transit supply and demand
- Analyze existing fixed-routes and schedules in light of current market conditions, including a review of Title VI issues and Americans with Disabilities Act considerations
- o Conduct a survey of existing fixed-route, paratransit, and ride share ridership to determine demographics, trip patterns, and customer perspectives on service
- o Investigate Lextran's current position and glean future needs through public outreach, focus groups, and strategic sessions with the Lextran Board of Directors and staff
- Evaluate existing funding sources

#### Phase II: Service Alignment and Analyses

- Conduct a data-driven analysis to suggest modifications that improve fixed-route service efficiency.
   This may include short term and long-range changes to the route structure and the pulse system and the exploration of a more grid-based system with multiple transfer points.
- o Conduct a data-driven analysis that identifies and evaluates areas for investment, including new service areas, park-and-ride facilities, economic development and so forth
- Create fixed-route schedules in light of local market conditions that continue to provide effective service while increasing efficiency
- o Identify operational policies and procedures to improve paratransit effectiveness and efficiency
- o Identify target markets for rideshare expansion

#### Phase III: Project Feasibility and Program

- o Create comprehensive transit service scenarios, including programs of projects, for consideration by Lextran's staff and Board of Directors
- Evaluate emerging transportation delivery models, such as mobility as a service, and their application within the Lexington context
- o Identify and evaluate potential funding sources
- o Concluding summary of findings and dissemination to stakeholders

The estimated cost of the proposed comprehensive operations analysis is \$400,000 and can be scaled as needed. Lextran will provide twenty percent of the project cost in matching funds, or \$80,000, leaving a remainder of \$320,000 to be funded through the Kentucky Transportation Cabinet's Office of Transportation Delivery.

#### TIME SCHEDULE

- Lextran Comprehensive Operation Analysis will begin in FY-2020 and the expected project duration is 18 months.
- ➤ All other Element 3.3 activities and tasks will occur throughout FY-2021.

#### **RESPONSIBLE AGENCIES**

MPO Staff, Lextran, FTSB, Wheels, BUS, FTA and the KYTC Planning and Transportation Delivery

# 3.3 TRANSIT PLANNING – STAFFING AND COSTS

<u>EL</u>	EMENT 3.3 STAFFING	<b>ESTIMATED COST</b>	<b>FUNDING SOURCE</b>

	Lextran COA	·	Total >	\$400,000

#### 3.4 PUBLIC PARTICIPATION & OUTREACH

# A. PUBLIC PARTICIPATION

#### **PURPOSE AND OBJECTIVES**

To engage the public and community stakeholders in the transportation planning process in accordance with the MPO's Participation Plan (PP). This includes disseminating information, providing timely opportunities for input, coordinating with governments, transit agencies, area stakeholders and the public regarding transportation policies, plans, projects and programs.

# **PLANNING ACTIONS**

- Maintain an up-to-date Participation Plan. Review and update the plan as needed in FY-2021.
- Expand and refine the MPO's public email and newsletter lists.
- Issue press releases to local media regarding plan updates, amendments and public meetings and other important activities.
- Conduct public meetings and surveys to gather input when conducting studies, developing plans and projects.
- Update and maintain the MPO website to provide access to transportation planning documents, MPO
  meeting schedules, and opportunities for public comment. It is anticipated that the MPO will conduct a
  major update of the MPO website in FY 21 including a new site architecture, revisions to content and
  improved visual quality.
- Maintain a record of public and stakeholder comments received by formal correspondence or informal interactions with staff at TPC meetings and public meetings conducted by the MPO.
- Utilize social media to disseminate timely updates on transportation-related information.
- Establish a collaborative strategy to share transportation-related information with the general public regarding transportation planning, project development, operational improvements and maintenance activities by coordinating with the various, local, state and regional agencies that oversee these activities.

# **PRODUCTS**

The products of this work element will be as follows:

- o A FAST Act compliant Participation Plan that is revised and up-to-date.
- o An up-to-date MPO website with statistics on public use included in MPO Quarterly Reports.
- o Press releases issued for all appropriate MPO activities.
- o Regular followers and social media posts. Statistics on the reach of posts in Quarterly Reports.
- Up-to-date and expanded stakeholder and public email, mailing and contact lists.
- o A record of public comments.
- Public meetings and/or surveys, as needed, to guide development of the MTP or other MPO work.

#### **TIME SCHEDULE**

> All fiscal year long

# **RESPONSIBLE AGENCIES**

MPO Staff is the primary agency. The KYTC, Lextran, and various agencies within the LFUCG are also partners that will assist and coordinate with the MPO.

#### **B. PUBLIC OUTREACH**

# **PURPOSE AND OBJECTIVES**

To provide and inform people of better choices and access to transportation options and to promote alternatives to single occupancy vehicle use in order to enhance mobility, improve safety, conserve energy, reduce highway congestion, and improve air quality, environmental conditions, and better quality of life within the MPO area. In the past, the MPO has utilized outside professional consulting services to conduct these public outreach and marketing activities. In FY 21, the MPO will implement a new collaborative approach to coordinate outreach activities with the LFUCG Division of Environmental Quality. It is anticipated that this approach will allow the MPO to produce marketing materials, purchase paid advertising, and expand the overall reach of outreach efforts in a cost-effective manner. This approach will be re-evaluated in FY 22.

#### **PLANNING ACTIONS**

- During FY 21, the MPO will establish a partnership with the LFUCG Division of Environmental Quality to develop and implement a strategic plan to promote alternative transportation options, including related safety information via existing and ongoing environmental and traffic safety education programs.
- The MPO will incorporate a list of transportation services and resources that are available within the region into the major update of the MPO website.
- The MPO will use social and traditional media outlets to disseminate timely updates on transportationrelated information and resources.

#### **PRODUCTS**

- Marketing materials and paid advertising that may include TV, newsprint, web-based ads and social media posts.
- o Informational clearinghouse web content.
- Promotional items and/or literature distributed at places of employment, public events, meetings and other tabling and public venues. \*Note: The MPO will not use FHWA PL funds for "promotional items" as this is not an eliqible item for PL funding under the current Code of Federal Regulations.
- o Frequency/reach of outreach efforts documented in MPO Quarterly Reports.

#### **TIME SCHEDULE**

All fiscal year long

# AGENCY RESPONSIBILITY

LFUCG Division of Planning, Transportation Planning/MPO staff, LFUCG Division of Environmental Quality.

#### 3.4 PUBLIC PARTCIPATION & OUTREACH - STAFFING AND COST

EL	EMENT 3.4 STAFFING	ESTIMATED COST	FUNDING SOURCE

			LFUCG 20% Match	\$29,708
	Total Cost =	\$148,539	Total Cost =	\$148,538

#### 3.5 PROJECT FORECASTING

# **PURPOSE AND OBJECTIVES**

To provide the Kentucky Transportation Cabinet (KYTC) and KYTC District 7, local government agencies, consultants, and other stakeholders with base year and design year traffic forecasts and/or provide the calibrated/validated Travel Demand Forecasting Model (TDFM) to consultants or KYTC for use in evaluating projects, traffic impacts, scoping studies, and for land use planning and development. Forecasts by the MPO and requesting parties are also used to inform feasibility studies, project design decisions, cost/benefit analyses and other applicable uses.

To meet this purpose and objective, operating costs for annual technical support and software updates from the Caliper Corporation for the TransCAD Software and on-call professional services for TDFM is included in the Element 4.1 – Program Administration operational budget.

#### PLANNING ACTIONS

- During FY-2021, the MPO will provide base and design year traffic assignments/forecasts to the KYTC and other requesting parties to help evaluate/design proposed projects within the MPO study area. TDFM will be provided as quickly as possible to requesting parties considering UPWP priorities and staff capabilities. As needed, the MPO will enlist the assistance of qualified TDFM consultants or KYTC Planning staff. This will only be necessary if staff has not yet developed the specific TDFM skills needed or has conflicting priorities. The requesting agency will be responsible for supplying all pertinent project design and traffic count information to the MPO.
- The MPO will work with the KYTC and "on call" consultants as necessary to keep the TDFM up-to-date and maintained.

#### **PRODUCTS**

- o An up-to-date and calibrated travel demand forecasting model.
- o Documentation of each TDFM effort and a number of project forecasts and amendments or revisions to forecasts noted in MPO quarterly reports.

#### **TIME SCHEDULE**

> On demand as needed when forecasting requests / needs arise

#### **RESPONSIBLE AGENCIES**

LFUCG Division of Planning, Transportation Planning/MPO with assistance from the KYTC Division of Planning

#### 3.5 PROJECT FORECASTING - STAFFING AND COST

# Element 4. PROGRAM ADMINISTRATION

#### 4.1 PROGRAM ADMINISTRATION

#### **PURPOSE AND OBJECTIVES**

To provide management, coordination, training and guidance to the MPO transportation planning staff and program activities to meet the needs and requirements of the FAST Act, the MPO's transportation planning committees, and funding agencies.

# **PLANNING ACTIONS**

- Provide leadership, management, guidance and correction to the Transportation Planning (LFUCG)/MPO staff for the implementation of the FY-2021 Unified Planning Work Program (UPWP).
- Administer the overall MPO process including short and long-range plans, projects, special planning studies, grants and contracts.
- Provide administrative and technical assistance to the Transportation Technical Coordinating Committee (TTCC), Transportation Policy Committee (TPC), Congestion Management Air Quality Committee (CMAQC), Bicycle Pedestrian Advisory Committee (BPAC) and the Project Coordination Team (PCT) and any additional ad hoc MPO sub-committees.
- Prepare committee agendas, minutes, technical reports, documents, presentations, visual tools and other information for the on-going business of the MPO.
- Provide presentations/orientations to stakeholder entities to facilitate the MPO process.
- Participate in weekly LFUCG Planning Director meetings and LFUCG Commissioner, Council and Mayoral meetings as requested to meet LFUCG obligations.
- Participate in KYTC, FHWA and other state and federally required meetings.
- Prepare all needed / required MPO and LFUCG Planning office correspondence.
- Respond to inquiries from various agencies, citizens groups and other stakeholders as necessary.
- Review pertinent transportation technical reports and legislation.
- Review, edit, and approve all work of MPO staff to develop, maintain, modify and implement the MTP, TIP, Participation Plan and other reports.
- Procure computer software, hardware and other tools as needed. Any software expenditure of \$100.00
  or more will have prior approval of the KYTC. In addition, any expenditure for additional microcomputer
  hardware will have prior written approval of the KYTC.
- Continue to procure an annual support contract and software update with the Caliper Corporation for the TransCAD travel demand model in FY2021.
- Assist Local Public Agencies (LPAs) with project development, federal grant applications and complying with federal funding requirements.
- Continue to direct MPO staff on compliance with the rules and regulations of the LFUCG, MPO, KYTC and FHWA regarding accounting, reporting, procurement, tracking, and other accountability policies required by the various agencies.
- Review and update all planning agreements as needed.
- Continue coordination and on-going communication with planners and elected officials in Scott County since a small piece of Scott County is included in the 2010 Census Urbanized Area.

# **PRODUCTS**

- o Quarterly and annual narrative progress and financial reports submitted to the KYTC and the Federal Transit Administration (FTA).
- o Monthly reports submitted to the LFUCG Division of Planning and Planning Commission.
- Weekly report of work activities provided to the LFUCG Planning Director and Commissioner.
- All other required reports as requested by federal and state partner agencies.
- All products required for administering the MPO staff to carry out the transportation planning process.

#### **TIME SCHEDULE**

All fiscal year

# **RESPONSIBLE AGENCIES**

LFUCG Division of Planning, Transportation Planning/MPO staff.

#### 4.1 PROGRAM ADMINISTRATION - STAFFING AND COST

	ELEMENT 4.1 STAFFING	ESTIMATED COST	FUNDING SOURCE	
7.0	Professional Staff-Months	\$54,057	FHWA / PL	\$144,455
12.0	Administrative Staff-Months	\$83,311	FTA / SEC. 5303	\$0
			SLX	\$0
	Operating Funds	\$44,200		
			KYTC	\$9,028
_			LFUCG	\$27,085
19.0	Total Cost =	\$180,568	Total Cost =	\$180,568

#### **DISADVANTAGED BUSINESS ENTERPRISE**

The Lexington-Fayette Urban County Government, Division of Planning is committed to use Disadvantaged Business Enterprises (DBEs) and Women Business Enterprises (WBEs) in all aspects of contracting to the extent feasible. It has been determined that DBEs and WBEs can be utilized as vendors in the purchase of supplies, printing, minor and major equipment. The LFUCG Division of Planning has set a 10% goal for doing business with DBE's and a 3% goal for WBEs, as follows:

TOTAL	10% DBE GOAL	3% WBE GOAL
\$8,800	\$880	\$264

This goal has always been met and exceeded by the Lexington Area MPO. The MPO attends the annual Lexington region's Minority Business Expo and other similar events to expand our contacts with potential DBEs and WBEs. The Lexington-Fayette Urban County Government Transportation Planning/MPO staff will continue to take the necessary steps to ensure that DBEs and WBEs have opportunity to compete and perform in all aspects of MPO contracting.

# 4.2 TRANSPORTATION IMPROVEMENT PROGRAM (TIP)

# **PURPOSE AND OBJECTIVES**

To develop a priority list of projects (or project phases) to be implemented within the four-year period of the current FY-2017 through FY-2020 TIP. In FY-2021, this TIP will be updated to FY-2020 through FY-2024. The TIP includes a listing of projects, their limits, scope, cost and funding source. Projects in the TIP must be fiscally constrained, be consistent with the MTP and CMP, be developed in consultation with the KYTC and other project sponsors including LFUCG and Lextran, and help towards achieving performance targets and environmental mitigation goals in the MTP. The MPO amends or modifies the TIP as needed according to procedures outlined in the MPO Participation Plan to achieve these goals and objectives.

# **PLANNING ACTIONS**

• Staff will prepare, submit and publish TIP modifications and amendments per procedures outlined in the MPO's Participation Plan. This includes consulting with the requesting agency, facilitating any required

public involvement activities, and initiating any necessary MPO committee actions. Amendment actions will be conducted in compliance with Performance-based Planning and Programming procedures and include a description of the anticipated effect of the TIP toward achieving performance targets established in the MTP.

- During FY 2021, the MPO will complete a major update of the FY 2017-2020 TIP (which officially expires on 10/25/2020). The TIP will be reconciled with the final KYTC Six Year Highway Plan at that time.
- All MPO TIP amendments and modifications will be forwarded to the KYTC, FHWA, and FTA for inclusion into the State Transportation Improvement Program (STIP).
- All TIP amendments and modifications will be made available to the public on the MPO website.
- The MPO staff will place special emphasis on expediting and monitoring Lexington area-dedicated STP (or SLX) projects and funds.
- Staff will prepare an "Annual Listing of Obligated Projects" highway, transit and planning projects funded with federal funds in accordance with federal regulations.

#### **PRODUCTS**

- o A federally-compliant and up-to-date TIP and all administrative modifications and amendments as needed to program federal funds as they become available.
- o A stand-alone report of the "Annual Listing of Obligated Projects"

#### **TIME SCHEDULE**

- ➤ The TIP will be updated and published by October 25, 2020.
- Annual Listing of Obligated Projects will be completed by December 30, 2020.
- > All other planning actions and products will be continually updated/improved all fiscal year.

# **RESPONSIBLE AGENCIES**

LFUCG Division of Planning, Transportation Planning/MPO in consultation with all appropriate agencies/stakeholders.

4.2 TRANSPORTAION IMPROVEMENT PROGRAM (TIP) - STAFFING AND COSTS

<u>E</u>	LEMENT 4.2 STAFFING	<b>ESTIMATED</b>	FUNDING SOURCE	
		<u>COST</u>		
7.0	Professional Staff-Months	\$57,815	FHWA / PL	\$46,252
			SLX	\$0
			KYTC	\$2,891
			LFUCG	\$8,672
	Total Cost =	\$57,815	Total Cost =	\$57,815

# 4.3 UNIFIED PLANNING WORK PROGRAM (UPWP)

#### **PURPOSE AND OBJECTIVES**

The UPWP communicates to the public and stakeholders how the MPO will carry out the transportation planning process and what regional planning activities the MPO will engage in over the next fiscal year. The UPWP outlines staffing, responsibilities, timelines, costs, funding sources, methodology, and other aspects of each work element. In addition, a post fiscal year annual report is completed to document accomplishments and how budgeted revenue and actual expenditures have matched up. This helps to inform and guide the next work program.

# **PLANNING ACTIONS**

- Develop a <u>FY-2020 Annual Performance and Expenditure Report</u> by UPWP element by the end of September in FY-2020 in coordination with the LFUCG Division of Community Development Grants
- Draft and adopt a FY-2022 UPWP including the following tasks:
  - Determine funding levels in consultation with FHWA, KYTC, FTA, and LFUCG.
  - Include staffing, cost, funding sources, methodology, target dates, responsible agencies, and products for each work element.
  - Submit the draft FY-2022 UPWP for review and comment to the KYTC, FHWA, FTA and other required review agencies by February 28, 2022.
  - Address draft FY-2022 UPWP changes/comments as requested by official reviewing agencies. Submit the revised UPWP to the TTCC for approval.
  - Submit the revised draft FY-2022 UPWP to the Transportation Policy Committee (TPC) and the Lexington Transit Authority Board of Directors (for the transit portion) for endorsement and final approval by 4/30/22.
  - Submit the FY-2022 UPWP for final approval, through the KYTC, FHWA and FTA.
  - Submit the FY-2022 UPWP and all MPO contracts through Kentucky State Clearing House system.
  - Print and/or distribute the final FY-2022 UPWP using the latest official routing list. Also, post on the MPO and LFUCG websites.
- Modify or Amend the FY-2021 UPWP, as necessary, throughout the fiscal year.

#### **PRODUCTS**

- o An approved FY-2022 Unified Planning Work Program (UPWP) document and any necessary amendments or modifications throughout FY-2021.
- o Annual Performance and Expenditure Report

#### TIME SCHEDULE

- FY 2020 Performance and Expenditure September 30, 2020
- > Draft UPWP February 28, 2021
- Final UPWP will be approved and distributed no later than April 28, 2021.

#### **RESPONSIBLE AGENCIES**

LFUCG Division of Planning, Transportation Planning/MPO, LFUCG Grants & Special Programs, MPO Partners, KYTC, FHWA, and FTA

Appendix H: Year 2010 Lexington Area Census Urbanized Area Map

## **Appendix I: Lexington Area MPO Planning Agreement (MOA)**

#### MEMORANDUM OF AGREEMENT

By and Between

## LEXINGTON AREA METROPOLITAN PLANNING ORGANIZATION

The

## TRANSIT AUTHORITY OF LEXINGTON-FAYETTE URBAN COUNTY GOVERNMENT (LEXTRAN)

And the

#### **KENTUCKY TRANSPORTATION CABINET**

This Memorandum of Agreement (MOA) is made by and between the Lexington Area Metropolitan Planning Organization (hereinafter referred to as MPO), the Transit Authority of Lexington-Fayette Urban County Government (hereinafter referred to as Lextran), and the Kentucky Transportation Cabinet (hereinafter referred to as KYTC).

#### Lexington Area MPO Structure

The MPO organizational structure consists of the Transportation Policy Committee (TPC), the Transportation Technical Coordinating Committee (TTCC), and two advisory subcommittees - Congestion Management Air Quality Committee (CMAQC) and Bicycle Pedestrian Advisory Committee (BPAC).

The TPC serves as the decision-making body of the MPO, and has responsibilities including approval of plans, implementation of programs, transportation projects prioritization, provision of transportation planning and guidance, and other similar related actions.

The TTCC serves as an advisory body to the TPC and provides transportation related technical review, guidance and assistance.

The MPO also utilizes specialized advisory committees and working groups which may include members such as transit operators and consumers, bicycle groups, various technical staff, members of MPO committees and other interested parties to help inform and advise the 11cc and TPC.

#### THE AGENCIES AGREE AS FOLLOWS:

The Lexington Fayette Urban County Government (LFUCG) Transportation Planning Section of Fayette County Kentucky is the designated staff agency for the MPO, serving the planning area of Fayette, Jessamine Counties and a small portion of Scott County at the Northern Fayette County border, the Lexington urbanized area and the two Jessamine County cities: Nicholasville and Wilmore.

Fayette and Jessamine County governments and the cities within actively participate and have regular representation on the various MPO committees. In consultation with Scott County on June 4, 2014 (following the 2010 Census that added a small portion of Scott County to the MPO Urbanized Area) Scott County Officials decided not to actively participate or be represented within the MPO process at this time. There was an interest to revisit participation in the future. The MPO pledged to continue conscientious coordination with Scott County in the on-going transportation planning process.

Lextran is the designated recipient of Federal Transit Administration funds designated for the urbanized area. Lextran constitutes an agency and instrumentality of the LFUCG and a political subdivision and public body corporate of the Commonwealth of Kentucky created pursuant to KRS 96A.020(1) for the purpose of promoting and developing mass transportation in its transit area and adjoining areas. The Board of Directors of Lextran manages, controls, and conducts the business, activities, and affairs of Lextran pursuant to KRS 96A.040(1) and may employ an Executive Director or General Manager pursuant to KRS 96A.070 (1).

In addition, Bluegrass Community Action, Bluegrass Ultra Transit (BUS) provides regional public transit between the city of Nicholasville and Lexington (hereinafter referred to as Jesslex). Federated Transportation Service of the Bluegrass (FTSB) also provides para-transit Medicare transportation services within the MPO planning area.

#### Performance-Based Transportation Planning & Programming

The MPO will develop and carry out a performance-based metropolitan transportation planning process in cooperation and consultation with KYTC and Lextran for Fayette and Jessamine Counties.

- KYTC and the MPO mutually agree to share available data related to performance measurement
  and target setting with each other, subject to the policies and procedures of each agency. Examples
  of such data include, but are not limited to traffic counts, travel times/speeds, socioeconomic data,
  travel demand modeling information, transit ridership data and infrastructure condition measures.
- The MPO will plan and program projects that contribute to the achievement of KYTC's statewide performance targets and/or commit to quantifiable performance targets for the metropolitan planning area or any portion thereof.
- KYTC will notify the MPO as soon as practicable upon the establishment and/or modification of its performance targets.
- Quantifiable performance targets must be approved by the MPO Policy Committee and reported to KYTC within 180days of the establishment of statewide performance targets by KYTC.
- The MPO will consider integration of relevant goals, objectives, and performance measures and targets developed by KYTC and Lextran into the transportation plans, programs and processes of the MPO. KYTC and Lextran will consider integration of relevant goals, objectives, and performance measures and targets developed by the MPO in decisions regarding their plans and planning activities within the MPO planning area.
- The MPO, in collaboration with the KYTC and other agency partners, will develop, implement, and
  maintain a Congestion Management Process to assist in the identification and selection of projects
  for the Transportation Improvement Program (TIP) and Metropolitan Transportation Plan (MTP).
  The Congestion Management Process will be consistent with the KYTC's statewide performance
  targets or the MPO's performance targets as applicable.

### Metropolitan Transportation Plan (MTP)

In cooperation and coordination with KYTC, Lextran and other agency partners, the MPO will develop and maintain a Metropolitan Transportation Plan (MTP) in compliance with all relevant laws and regulations. The MPO shall review and update the transportation plan at least every five years to confirm the transportation plan's validity and consistency with current and forecasted transportation and land use conditions and trends, and to extend the forecast period to at least a 20-year planning horizon.

- The MPO will initiate, in consultation with KYTC, Lextran and other agency partners, the
  selection of projects to include in the MTP. The initial list of MTP projects will be confirmed,
  supplemented by or revised by public input received during the public comment period of the
  MTP. The MPO will receive and address all comments and include documentation as part of the
  MTP.
- KYTC will provide the MPO with sufficient details, including location, description and cost for projects proposed or endorsed by KYTC for inclusion in the MTP.
- LFUCG {including the Division of Engineering, Traffic Engineering, and other agencies as appropriate} will provide the MPO with sufficient details, including location, description and cost for projects proposed or endorsed by the LFUCG for inclusion in the MTP.
- Lextran will provide the MPO with sufficient details, including location, description and cost for projects proposed or endorsed by Lextran and the MPO for inclusion in the MTP.
- At the request of the MPO, KYTC will provide preliminary system-level estimates of costs necessary
  to adequately operate and maintain the Federal-aid highway system within the planning area. The
  MPO may adjust these preliminary cost estimates with KYTC's concurrence.
- At the request of the MPO, Lextran, BUS, FTSB, Jessamine County Fiscal Court and the cities of Nicholasville and Wilmore, LFUCG agency partners including Engineering - Traffic Engineering -Streets and Roads and other agencies as necessary will provide preliminary system-level estimates of costs necessary to adequately operate and maintain the local highway system and transit systems within the planning area. The MPO may adjust these preliminary cost estimates with KYTC's concurrence.
- At the request of the MPO, KYTC will provide available information on historic levels of transportation expenditures for Fayette and Jessamine Counties and the state of Kentucky; an estimate of current typical annual transportation spending at the **state** level; an estimate of the annual construction cost inflation rate over the time horizon covered by the MTP; and an estimate of the annual rate of change of transportation spending over the life of the MTP. The MPO may adjust the annual construction cost inflation rate based on local conditions. Upon agreement with KYTC, the MPO may also adjust the annual rate of change of transportation spending.
- The MPO is responsible for developing a financially reasonable MTP in consultation with KYTC, Lextran and other agency partners, and will be in compliance with current federal planning regulations set forth by the Federal Highway Administration (FHWA) and Federal Transit Administration (FTA). The MTP will follow public participation guidelines outlined in the MPO Participation Plan and in compliance with state and federal regulations.

- The MPO will prepare necessary amendments and/or administrative modifications to the MTP that will include a project description, location, cost estimates, and impact on financial constraint, if applicable. Amendments and administrative modifications will follow the procedures outlined in the latest approved MPO Participation Plan.
- The final MTP will be approved by the MPO Transportation Policy Committee and will include a
  financial plan that clearly states the methods and assumptions used to determine the financial
  reasonableness of the MTP.

## <u>Transportation Improvement Program {TIP}</u>

In cooperation and coordination with KYTC, Lextran and other agency partners, the MPO will develop and maintain a Transportation Improvement Program (TIP) as the short-range program of projects for the MPO **area.** The TIP will be consistent with all federal requirements and will cover a period of no less than four years at the time of its adoption, and it will be updated at least every four years. The final TIP will be approved by the MPO Policy Committee.

- Projects included in the TIP will be consistent with the Kentucky Highway Plan, developed by KYTC in cooperation with the MPO and reviewed/approved biennially by the Kentucky General Assembly.
- The MPO is responsible for developing a fiscally constrained TIP. The cooperative process for completing the TIP Financial Plan shall be as follows:
  - a. For federal funding categories not sub-allocated to the MPO, the financial plan is based on the fiscal constraint maintained by the KYTC and demonstrated in the Kentucky STIP.
  - b. KYTC will provide an estimate of available federal funds for the funding categories that are sub-allocated to the MPO.
  - c. The MPO will ensure that fiscal constraint is maintained for funds that are sub-allocated to the MPO.
  - d. The MPO is responsible for ensuring that the estimated available funds and project costs in the TIP reflect year of expenditure (VOE) amounts. KYTC, Lextran, and other agency partners will assist the MPO in identifying VOE costs for TIP projects.
- At the request of the MPO, KYTC will provide cost estimates and project schedules for projects sponsored or endorsed by KYTC. LFUCG (including the Division of Engineering, Traffic Engineering, and other agencies as appropriate) will provide this information for projects proposed or endorsed by the LFUCG for inclusion in the TIP. KYTC may, at its discretion, provide cost estimates for projects sponsored by other agencies.
- The MPO will amend or modify the TIP as needed to reflect changes in project implementation schedules and costs; the development of new operations, maintenance or safety projects by KYTC; or successful grant applications for federal program funds.

#### **Participation Plan**

In compliance with metropolitan planning regulations, the MPO has developed a Participation Plan which outlines a formal public involvement process, including public notice and comment periods, which is followed in the development of the TIP and MTP. The MPO agrees to follow its public involvement process **as a** part of all metropolitan-wide transportation planning initiatives. The MPO will review the Participation Plan annually and initiate a major update on a 5-year cycle or as determined by the annual review. Minor revisions to the Participation Plan will not require public review and notifications.

#### **Annual Listing of Obligated Projects**

The MPO will develop an Annual Listing of Obligated Projects outlining all projects within the metropolitan planning area for which funding has been obligated over the past fiscal year.

- Following the end of each fiscal year, KYTC will provide information to the MPO on funds obligated under 23 U.S.C.
- Lextran and BUS will prepare an annual listing of obligated projects that meet all applicable Federal requirements and will share the information with the MPO on funds obligated under 49 U.S.C. Chapter 53 or other funding sources.
  - The MPO will provide the annual fisting of obligated projects to KYTC in time for KYTC to submit the listing to FHWA by the Federal deadline.

#### **Unified Planning Work Program**

The MPO will annually prepare a Unified Planning Work Program (UPWP) for the following fiscal year based on anticipated funding levels. The MPO will submit a copy to all applicable parties for review and determination of eligibility, in accordance with established schedules and document routing requirements.

- The MPO will coordinate with KYTC, Lextran and other agency partners to determine appropriate work tasks to be included in the UPWP.
- Funding parameters for the UPWP will be determined by the amount of Kentucky Metropolitan Planning (PL) funds distributed to the MPO by the Kentucky MPO Council. This is determined each year in consultation with KYTC. Additionally, the inclusion of FTA funds shall be considered during the development of the UPWP.
- The MPO will coordinate with Lextran on the development and submittal of the FTA 5303 application. The LFUCG contracts with Lextran for all transit services, with Lextran as the recipient of FTA funds. The MPO will not be responsible for providing the local match to FTA 5303 funds, unless otherwise negotiated.

## **Committee Membership**

- KYTC will be permitted to appoint at least one voting member to the MPO Policy Committee and at least two voting members to the MPO Technical Committee.
- Lextran will be represented by the General Manager on the MPO Policy Committee, with voting membership.
- Lextran transit staff will be permitted one voting member on the MPO Transportation Technical Coordinating Committee (TTCC).

#### **Transit Coordination**

The MPO will coordinate with Lextran and other regional transit providers on matters related to public transportation as they pertain to the MPO transportation planning process.

- The MPO will provide input to Lextran on MPO related planning projects and can represent the MPO on Lextran committees or meetings on an as needed or ad-hoc basis.
- The MPO will coordinate with Lextran to ensure that all identified transit-related projects are included in the TIP.
- The MPO, Lextran and KYTC agree that the public and agency outreach procedures for TIP Amendment and Administrative Modification processes included in the Participation Plan are adequate to meet the public input required for Lextran's Program of Projects (POP) and meet the intent of the federal planning regulations.
- The MPO will coordinate and assist Lextran and other public transit providers in the development of the Coordinated Public- Human Services Transportation Plan

#### **Termination and Modification**

- It is the intent of the MPO, KYTC, and Lextran to carry forward the planning process on a continuing basis. It is the intention of the parties that this agreement will be in effect for a period beginning on the execution of this agreement.
- This agreement will remain in effect until terminated or superseded by a new agreement.
   Any agency subject to this agreement may withdraw from the agreement by giving thirty (30) days written notice to all other agencies subject to the agreement. In the event that an agency withdraws from this agreement, the rights and responsibilities of the remaining agencies will remain unchanged with respect to each other until this agreement is amended or replaced.
- In the event that this agreement requires modification for any reason, the required modifications may be accomplished through the execution of a letter modification or supplementary agreement between all agencies subject to this agreement.
- This agreement may be amended or replaced with a new agreement at any time upon the written consent of all remaining signatory agencies. In the event that this agreement is replaced with a new agreement, this agreement will become null and void when the new agreement goes into effect.

## **Dispute Resolution**

• Should a dispute arise which cannot be resolved between agency staffs and/or MPO committee members, the matter will be elevated to agency executives and, if necessary, the governor. The Federal Highway Administration (FHWA), Federal Transit Administration (FTA) and any other relevant agencies will be consulted throughout the dispute resolution process, as needed, and their input will be taken into consideration in attempting to resolve disputes. In the event that a dispute cannot be resolved, any signatory agency to this agreement may withdraw from the agreement as described above under Termination and Modification.

The signatures below signify the acceptance and approval of this agreement.
